December 9, 2015

**SUBJECT: General Order (GO) 167 Audit of the Inland Empire Energy Center
Audit Number GO167-1019**

Dear Mr. Kling:

The Safety and Enforcement Division (SED) has completed the Audit Report for the Inland Empire Energy Center (copy enclosed).

Please submit a response to SED by January 15, 2016. The response should include a Corrective Action Plan (CAP) for all of the violations listed in Section III (Violations Requiring Corrective Action) of the report. The CAP should include a description and schedule of the corrective actions Inland Empire plans to take to achieve full and prompt compliance with General Order 167. If you believe the report contains factual or other errors, you may discuss those in your response.

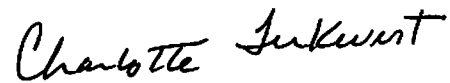

Please submit your response electronically to Matthew Bond (matthew.bond@cpuc.ca.gov) and Winnie Ho (winnie.ho@cpuc.ca.gov). After SED reviews your response, the audit team may set up a meeting with you for further discussions.

Please note that although Inland Empire has been given 37 days to respond because of the upcoming holidays. However, Inland Empire has a continuing obligation to comply with all applicable requirements of General Order 167. The 37-day period does not alter this continuing duty.

If you wish to make a claim of confidentiality covering any of the information in the audit report, please submit a confidentiality request pursuant to Section 15.4 of General Order 167, using the heading "General Order 167 Confidentiality Claim." Please send the request to Iryna Kwasny (iryna.kwasny@cpuc.ca.gov) of our Legal Division, with a copy to Matthew Bond and Winnie Ho.

Thank you for your courtesy and cooperation throughout the audit process. If you have any questions, please contact Matthew Bond at (213) 576-1313.

Sincerely,

A handwritten signature in cursive script that reads "Charlotte TerKeurst".

Charlotte TerKeurst, Program Manager
Electric Safety and Reliability Branch
