STATE OF CALIFORNIA Gavin Newsom, Governor

PUBLIC UTILITIES COMMISSION

505 VAN NESS AVENUE SAN FRANCISCO, CA 94102-3298

September 13, 2021

CA2021-895

Ross Johnson AT&T Director of Regulatory Relations 430 Bush Street, 5th Floor San Francisco, CA 94108

SUBJECT: Audit of AT&T San Diego County District

Mr. Johnson:

On behalf of the Electric Safety and Reliability Branch (ESRB) of the California Public Utilities Commission, Calvin Choi and Mily Vaidya of my staff conducted a Communication Infrastructure Provider (CIP) audit of AT&T's San Diego County District from April 12, 2021 to April 18, 2021. The audit included a review of AT&T's inspection and maintenance records and a field inspection of AT&T communication facilities.

During the audit, my staff identified violations of one or more General Orders (GOs). A copy of the audit findings itemizing the violations is enclosed. Please advise me no later than October 13, 2021, by electronic or hard copy, of all corrective measures taken by AT&T to remedy and prevent such violations.

If you have any questions concerning this audit, please contact Calvin Choi at (213) 219-3034 or Calvin.Choi@cpuc.ca.gov.

Sincerely,

Fadi Dave, P.E.

Fadi You

Program and Project Supervisor Electric Safety and Reliability Branch Safety and Enforcement Division

California Public Utilities Commission

Enclosures: CPUC Audit Findings

Cc: Lee Palmer, Director, Safety and Enforcement Division, CPUC Nika Kjensli, Program Manager, Electric Safety and Reliability Branch, CPUC Calvin Choi, Utilities Engineer, CPUC

AUDIT FINDINGS

I. Records Review

During the audit, my staff reviewed the following records:

- Overhead and underground detailed inspections records.
- Completed and pending corrective action work orders.
- Pole loading calculations.
- AT&T's Intrusive Inspection of Wood Poles
- AT&T's Overhead Lines Maintenance Plan
- AT&T's Visual Inspections of Overhead Lines

II. Records Review – Violations List

My staff observed the following violations during the records review portion of the audit:

GO 95, Rule 31.2, Inspection of Lines, states in part:

Lines shall be inspected frequently and thoroughly for the purpose of ensuring that they are in good condition so as to conform with these rules. Lines temporarily out of service shall be inspected and maintained in such condition as not to create a hazard.

GO 165, Standard III-B, Distribution Facilities, Standards for Inspections, states in part:

Each utility subject to this General Order shall conduct inspections of its distribution facilities, as necessary, to ensure reliable, high-quality, and safe operation, but in no case may the period between inspections (measured in years) exceed the time specified in <u>Table 1</u>.

AT&T's records indicated that from 2015 to 2020, AT&T failed to perform 295 overhead detailed inspections by AT&T's inspection dates.

GO 95, Rule 31.1, Design, Construction and Maintenance, states in part:

For all particulars not specified in these rules, design, construction, and maintenance should be done in accordance with accepted good practice for the given local conditions known at the time by those responsible for the design, construction, or maintenance of communication or supply lines and equipment.

GO 95 Rule 18, Resolution of Potential Violations of General Order 95 and Safety Hazards, states in part:

Each company (including electric utilities and communications companies) is responsible for taking appropriate corrective action to remedy potential violations of GO 95 and Safety Hazards posed by its facilities.

AT&T's records indicated that for 2020, AT&T completed 228 work orders past their due date for corrective action.

III. Field Inspection

My staff inspected the following structures during the field inspection portion of the audit:

No.	Structure ID.	Type of Structure	Location
1	20724P73319	Pole	San Diego

IV. Field Inspection – Violations List

We observed the following violations during the field inspections:

GO 95, Rule 31.1, Design, Construction, and Maintenance, states in part:

Electrical supply and communication systems shall be designed, constructed, and maintained for their intended use, regard being given to the conditions under which they are to be operated, to enable the furnishing of safe, proper, and adequate service.

The AT&T facilities on each of the following poles were not maintained for their intended use:

- 20724P73319: there was a loose lashing wire hanging from AT&T lines near this pole.
- P811949: there was a buried down guy anchor attached to the pole.

GO 95, Rule 56.2, Uses (Guy Wires), states in part:

Guys shall be attached to structures, as nearly as practicable, at the center of load. They shall be maintained taut and of such strength as to meet the safety factors of Rule 44.

AT&T down guy wire attached to each of the following poles was not taut:

- 20724P73319
- P479213
- P674166

GO 95, Rule 84.8-C3b: Above Ground in Areas Accessible to Pedestrians Only, states in part:

Residential Premises: Over areas accessible to pedestrians only, the vertical clearance shall not be less than 10 feet. EXCEPTION: If the building served does not permit an attachment which will provide this 10 foot clearance without the installation of a structure on the building, the clearance shall be as great as possible but in no case less than 8 feet 6 inches.

An AT&T service drop attached to pole P2486225 had an above ground clearance of less than 10 feet.

GO 95, Rule 84.6-B, Ground Wires, states in part:

Ground wires, other than lightning protection wires not attached to equipment or ground wires on grounded structures, shall be covered by metal pipe or suitable covering of wood or metal, or of plastic conduit material as specified in Rule 22.8–A, for a distance above ground sufficient to protect against mechanical injury, but in no case shall such distance be less than 7 feet.

The ground moulding attached to each of the following poles was damaged:

- P677233
- P676914
- 811950
- Pole next to P170146
- P170142

GO 95, Rule 87.7-D1, Covered from Ground Level to 8 Feet above the Ground:

Risers shall be protected from the ground level to a level not less than 8 feet above the ground by:

b) Non-metallic conduit or rigid U-shaped moulding. Such conduit or moulding shall be of material as specified in Rule 22.8.

The conduit for AT&T riser attached to each of the following poles was damaged or missing:

- 20730J73331
- P2076273321
- P677233
- P676914
- P811949
- P811950
- Pole Next to P170146

GO 95, Rule 31.6, Abandoned Lines, states:

Lines or portions of lines permanently abandoned shall be removed by their owners so that such lines shall not become a public nuisance or a hazard to life or property. For the purposes of this rule, lines that are permanently abandoned shall be defined as those lines that are determined by their owner to have no foreseeable future use.

AT&T service drops attached to each of the following poles were cut and abandoned:

- Pole north of TP2904
- TP2900
- One pole north of TP2900
- Pole next to P170146
