**Re: San Diego Gas & Electric Company Public Safety Power Shutoff Post-Event Report  
for November 26 – December 9**

Dear Director Palmer:

Pursuant to Ordering Paragraph (OP) 2 of Commission Decision (D.) 12-04-024, Section II.A of Commission Resolution ESRB-8, D.19-05-042, and D.20-05-051, San Diego Gas & Electric Company (SDG&E) submits this report regarding the Public Safety Power Shutoff (PSPS) event that occurred in SDG&E's service territory on November 26, 2020 – December 9, 2020. As noted in the PSPS reporting requirements, this report has been verified by an SDG&E officer in accordance with Rule 1.11 of the Commission's Rules of Practice and Procedure.

In accordance with D.19-05-042, this report is being distributed to the service lists for the following Commission rulemaking proceedings: R.18-10-007 and R.18-12-005.

If you have any questions regarding this report, please contact Elizabeth Beaver at (858) 654-1787, or [ebeaver@sdge.com](mailto:ebeaver@sdge.com).

Sincerely,

/s/ Clay Faber  
Clay Faber  
Director – Regulatory Affairs

Service List for R.18-12-005

## **SDG&E Report on Public Safety Power Shutoff Events: November 26–December 9, 2020**

This report covers the Public Safety Power Shutoff (PSPS) events that occurred in SDG&E's service territory from November 26 through December 9, 2020. SDG&E submits this report to the Director of Safety and Enforcement Division (SED) and the service lists for Rulemaking (R.) 18-12-005 and R.18-10-007. This report includes the information required by Decision (D.) 12-04-024, Section II.A of CPUC Resolution ESRB-8, D.19-05-042, and D.20-05-051.

The analysis and data provided in this report are based on the most current information available at the time and are subject to modification resulting from additional analyses and assessments completed following submission of the report.

- 1. An explanation of SDG&E's decision to de-energize, including an explanation of alternatives considered; mitigation measures used to decrease the risk of utility-caused wildfires in de-energized areas; a thorough and detailed description of the quantitative and qualitative factors SDG&E considered in calling, sustaining or curtailing the PSPS event, including information regarding why PSPS was a last resort option; and the specific conditions SDG&E determined must be present for the de-energization event to be concluded.**

### **Response:**

This report covers three consecutive weather events that impacted SDG&E's service area between November 26, 2020 and December 9, 2020. The first weather event began on November 26 and concluded on November 28 (Weather Event #1); the second weather event began on December 2 and concluded on December 5 (Weather Event #2); the third weather event began on December 6 and concluded on December 9 (Weather Event #3).

Since three separate weather events occurred during this timeframe, with less than 72 hours in between each weather event, SDG&E's Emergency Operations Center (EOC) remained activated for the entire period and considered this a single emergency event. SDG&E submits this single report for the emergency event to address the three weather and PSPS events that took place between November 26 and December 9. Where appropriate, SDG&E has provided separate responses specific to each weather event with headings to indicate which weather event the response is related to.

### **Explanation of the Decision to De-Energize**

The decision to initiate PSPS was made at SDG&E's EOC, which was fully staffed for the event in a remote environment by a cross-functional team of electric operations, safety, meteorology, engineering, customer service, external affairs, communications, and other personnel, as well as a designated Utility Incident Commander (UIC). SDG&E activated its EOC to provide a coordinated response; ensure there was informed decision-making; coordinate as-needed logistic support; and manage notifications to all affected stakeholders, including customers, state agencies, local jurisdictions, tribal governments, elected representatives, and public safety partners.

SDG&E's EOC was fully activated on November 27 at 02:00 in response to weather forecasts indicating Santa Ana conditions, including strong winds and low humidity, were possible in portions of SDG&E's service area. Based on advanced forecasts, SDG&E

## **SDG&E Post-Event Report on Public Safety Power Shutoff Event: November 26–December 9, 2020**

anticipated the most severe winds and critical fire weather in areas of eastern San Diego County.

SDG&E weighs many inputs when making the decision to de-energize portions of its system, and leverages refined situational awareness data and input from its subject matter experts when considering the need for PSPS, though experience with the program has indicated it is not appropriate to use a prescriptive technique to determine when to use PSPS, as wildfire conditions are dynamic and not every situation is the same. When making the decision to de-energize, SDG&E considers the following factors:

- Weather conditions: SDG&E’s Fire Potential Index (FPI) ratings, Red Flag Warnings (RFW) issued by the National Weather Service (NWS), and the Santa Ana Wildfire Threat Index (SAWTI);
- Vegetation conditions and SDG&E’s Vegetation Risk Index;
- Field observations and flying/falling debris;
- Information from first responders;
- Meteorological data, including 10-years of historical information from weather stations and, 99th and 95th percentile winds;
- Expected duration of conditions;
- Location of any existing fires;
- Wildfire activity in other parts of the state affecting resource availability;
- Information on temporary construction.

SDG&E has not developed a specific PSPS algorithm that lists, quantifies and calculates the weight of each factor that is incorporated into a PSPS. SDG&E has developed and published information regarding the factors and weights that go into the determination of the fire environment severity which is included in the FPI and SAWTI sections of SDG&E’s 2020 Wildfire Mitigation Plan (WMP).<sup>1</sup>

In addition to local weather conditions, SDG&E closely monitored and considered wildfire activity throughout the region and the availability of fire suppression resources to the area. During this event, the decision to implement PSPS was not based on a single factor, but rather a confluence of conditions. The central considerations in determining if PSPS were warranted are detailed below for each distinct weather event.

### **Local Fire Conditions and Fire Potential**

SDG&E monitored fire activity, as well as staffing levels of local, state, and federal fire agencies locally and regionally throughout these weather events. This information is part of the larger situational awareness picture and aids in the decision of whether or not PSPS is warranted. This is achieved by communicating with agencies that have jurisdiction in the SDG&E service area and monitoring multiple incident notification tools on a 24/7 basis.

---

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**Weather Event #1: November 26–28, 2020**

**Summary:** The NWS issued a RFW for Inland Orange County (Zone 554) effective November 26 at 14:00 until November 27 at 18:00, and for the San Diego County Valleys and Mountains (Zones 250 & 258) effective November 26 at 21:00 until November 28 at 09:00. A High Wind Warning was also issued for Inland Orange County from 16:00 on November 26 until 15:00 on November 27, as well as a Wind Advisory for Coastal Orange County (Zone 552) for the same time period. At 12:48 on November 27, the NWS canceled the Wind Advisory for Coastal Orange County and the High Wind Warning for Inland Orange County. The SAWTI for San Diego County was rated Moderate for November 27 and Marginal for November 28.

**Weather Forecasts:** The NWS forecasted winds of 15-25 miles per hour (mph) with gusts of 35-45 mph for the mountains and valleys of San Diego County with relative humidity (RH) dropping to 8-12%. For inland Orange County, NWS forecasted sustained winds of 30-40 mph with gusts of 65-75 mph in wind-prone areas. The NWS forecasted the potential for damaging winds that “will blow down trees and power lines.” Coastal Orange County was expected to see winds of 15-25 mph with gusts of 40-45 mph. SDG&E weather models were showing the potential for gusts of 30-40 mph across the backcountry of San Diego, along with humidity levels in the teens. The FPI was rated Elevated for November 27-28.

**Weather Conditions:** Winds began to ramp up in the northwest portion of the service territory on the evening of November 26, extending into the backcountry by early morning. Winds peaked late morning and subsided thereafter. Over the course of the event, eight SDG&E weather stations met or exceeded their 99<sup>th</sup> percentile wind gust, and 75 met or exceeded their 95<sup>th</sup> percentile wind gust. The peak gust recorded by SDG&E weather stations for this weather event was 56 mph, with six stations reporting gusts at or above 50 mph. The average peak wind gust of weather stations was 25.2 mph in Tier 2 of the High Fire Threat District (HFTD), and 32.8 mph in Tier 3 of the HFTD.

**Local Fire Conditions and Fire Potential:** Throughout the weather event from November 26-28, local, state, and federal resource reports indicated the SDG&E service territory had regular staffing levels for the time of year and expected fire behavior. Precipitation a few weeks prior to this event enabled small amounts of grass to sprout in small areas of the service territory, but new growth of the majority of the fuel beds had not yet begun. Fire Potential during this event was deemed “Elevated,” and SDG&E continued to implement the use of Wildland Fire Prevention resources coupled with SDG&E personnel in areas where the risk of wildland fire existed. Personnel also adhered to SDG&E’s Operation and Maintenance Wildland Fire Prevention Plan (ESP 113.1) throughout the event.

SDG&E monitored fire resource dispatches during this weather event, and one fire in SDG&E’s service territory validated its assessment of the fire risk and spread rate. This fire burned in an area that previously had experienced some growth with approximate 2-3 inches of green grass. While the fire occurred during a time where winds were only gusting 10-20 mph, it required fixed wing aircraft to stop its forward rate of spread. The

## **SDG&E Post-Event Report on Public Safety Power Shutoff Event: November 26–December 9, 2020**

fire behavior mirrored that of a fire that would have burned during mid-summer (June or July) in that area with complete consumption of fuels.

### **Weather Event #2: December 2–5, 2020**

**Summary:** A strong, widespread Santa Ana event occurred over the SDG&E service territory during the first week in December. During this weather event, 43 SDG&E weather stations exceeded their all-time record for Santa Ana wind gusts, and 126 of them met or exceeded their 99<sup>th</sup> percentile wind gust. A Red Flag Warning and High Wind Warning was issued by the NWS, as well as an Extremely Critical Fire Weather Outlook from the NWS Storm Prediction Center (SPC).

**Weather Forecasts:** Significant forecast model discrepancy was prevalent in the days leading up to this weather event, both in the timing and severity, though it was apparent that a strong, widespread event was possible. A RFW was issued for Inland Orange County (Zone 554) and the San Diego County Valleys and Mountains (Zones 250 & 258) from December 2 at 18:00 until December 5 at 22:00. At 11:00 on December 4, this RFW was canceled. That same area was covered by a High Wind Warning from December 2 at 22:00 until December 3 at 18:00 for “damaging winds” that could “blow down trees and power lines.” The NWS was forecasting RH values down to 5-10% with poor overnight recovery with winds gusting to 60 mph along with isolated gusts to 80 mph. Additionally, the NWS SPC issued a Fire Weather Outlook of Extremely Critical for portions of the San Diego County Mountains and Critical for the coastal ranges of Southern California for local wind gusts exceeding 80 mph. Their forecast stated, “These winds, low RH values, and dry fuels will support areas of extremely critical fire-weather at times, and fast-moving, erratic fire behavior could occur if fires develop.” The SAWTI was rated Moderate for December 2-3. The FPI was Extreme for all inland districts and Elevated at the coast on December 3, and Elevated for all districts on December 4. SDG&E weather forecast models showed the potential for widespread backcountry wind gusts of 50-60 mph, and isolated higher gusts in wind-prone locations, with RH values in the teens to single-digits through the duration of the event.

**Weather Conditions:** Santa Ana winds developed in the backcountry in the evening of December 2 and escalated quickly, becoming strong and widespread during the overnight hours. Winds remained strong through the morning of December 3 and became more isolated in the afternoon. During this weather event, 43 SDG&E weather stations met or exceeded their all-time Santa Ana wind gust record, 126 stations met or exceeded their 99<sup>th</sup> percentile wind gust, and 170 met or exceeded their 95<sup>th</sup> percentile wind gust. The peak wind gust for the event was 94 mph, with 64 SDG&E weather stations reporting gusts at or above 50 mph, and 25 stations at or above 60 mph. The average peak wind gust for stations within Tier 2 of the HFTD was 37.0 mph, and in Tier 3 of the HFTD was 49.2 mph.

**Local Fire Conditions and Fire Potential:** Throughout the weather event from December 2-5, local, state, and federal resource reports indicated the SDG&E service territory had regular staffing levels for the time of year and expected fire behavior with minimal resources being sent out of county to support other incidents. Having just experienced a less intense Santa Ana event a few days prior, SDG&E’s service territory

## **SDG&E Post-Event Report on Public Safety Power Shutoff Event: November 26–December 9, 2020**

had experienced drying with new and old growth fuel moistures still below critical thresholds. Fire potential during this event was deemed “Extreme” for some areas of the service territory and “Elevated” for others. SDG&E continued to implement the use of Wildland Fire Prevention resources coupled with SDG&E personnel in areas where the risk of wildland fire existed. Personnel also adhered to SDG&E’s Operation and Maintenance Wildland Fire Prevention Plan (ESP 113.1) throughout the event.

This weather event impacted large parts of southern California. The Bond Fire is an example of the fire potential that came with this wind event. It began on December 2 at approximately 22:15, just 10 miles north of SDG&E service territory, and burned 6,686 acres.

### **Weather Event #3: December 6–9, 2020**

**Summary:** The third, and final, Santa Ana in the series of weather events developed on December 7. This was a moderate to locally strong event where more than one-quarter of the SDG&E weather stations met or exceeded their 99<sup>th</sup> percentile wind gusts. The NWS issued both a Red Flag Warning and a High Wind Warning for portions of Orange and San Diego Counties, while the SDG&E FPI was rated Extreme for the peak of the event.

**Weather Forecasts:** Forecast model discrepancies, again, led to some uncertainties in the strength and timing of the event as the event drew near. It was, however, clear that this event would be somewhat weaker than the preceding event. Two days prior to the onset of the winds, the National Weather Service’s RFW declaration indicated a forecast of gusts to 40 mph, locally as high as 50 mph in wind-prone areas. Subsequent forecast issuances showed stronger gust potential as forecast models came into better alignment, and later indicated gusts to 60 mph, isolated as high as 75-80 mph in wind-prone locations. Similarly, the forecast from SDG&E Meteorology indicated widespread winds of 30-45 mph, isolated as high as 75 mph in the most wind-prone areas. With little to no recovery in humidity or fuel moistures between events, the fire potential was high with excerpts from the National Weather Service declaring, “Any fires that develop will spread rapidly,” and the Santa Ana Wildfire Threat Index indicating, “Upon ignition, fires will grow rapidly and will be difficult to control.”

**Weather Conditions:** Santa Ana winds developed early in the morning on December 7 and became widespread through the morning and early afternoon. By nightfall, winds became moderate to locally strong in the wind-prone areas and remained gusty through much of the day on December 8. Peak wind gusts during the event reached as high as 81 mph, with 31 weather stations on SDG&E’s weather network reporting gusts at or in excess of 50 mph. In total, one weather station broke its all-time wind gust record, while 67 met or exceeded their 99<sup>th</sup> percentile and 145 met or exceeded their 95<sup>th</sup> percentile. The average peak wind gust was 31.5 mph in Tier 2 of the HFTD and 41.7 mph in Tier 3 of the HFTD. These winds were coupled with humidity of 10-15% and afternoon high temperatures in the low to middle 80s across coastal and valley communities.

**Local Fire Conditions and Fire Potential:** Throughout the weather event from December 6-9, local, state, and federal resource reports indicated the SDG&E service

## **SDG&E Post-Event Report on Public Safety Power Shutoff Event: November 26–December 9, 2020**

territory had regular staffing levels for the time of year and expected fire behavior with minimal resources being sent out of county to support other incidents. With two preceding Santa Ana events, SDG&E's service territory had new and old growth fuel moistures were below critical thresholds. Fire potential during this weather event was deemed "Extreme" for some areas of the service territory and "Elevated" for others. SDG&E continued to implement the use of Wildland Fire Prevention resources coupled with SDG&E personnel in areas where the risk of wildland fire existed. Personnel also adhered to SDG&E's Operation and Maintenance Wildland Fire Prevention Plan (ESP 113.1) throughout the event.

### **Alternatives Considered**

Once extreme fire risk weather conditions have materialized, alternatives to PSPS are limited. Over the past decade, SDG&E has dedicated, and continues to dedicate, substantial resources to wildfire prevention and mitigation activities, including work to enhance the resiliency of its grid and to add tools and technologies for weather monitoring and wildfire mitigation.<sup>2</sup> In addition to improving SDG&E's ability to forecast and monitor extreme weather conditions, these efforts enable SDG&E to reduce the number of PSPS events and mitigate the scope of events when PSPS is implemented.

In the days leading up to potential PSPS events, including the events described in this report, SDG&E meteorologists closely monitor weather forecasts to identify the specific areas most likely to experience weather conditions that warrant PSPS. Operational groups use these targeted forecasts to strategically stage field crews and observers in areas anticipated to experience the most severe weather.

Once fire weather conditions materialize, stations in SDG&E's weather network provide reading of conditions including wind speeds, temperatures and relative humidity every 30 seconds. This data is monitored in real time by staff at SDG&E's EOC and used to determine if PSPS should be implemented. This close monitoring and frequent updating of location-specific data enables SDG&E to implement PSPS only as a last resort when conditions warrant de-energization.

### **Mitigation Measures to Decrease Utility-Caused Fire Risk in De-Energized Areas**

SDG&E implements mitigation measures used to decrease the risk of utility caused wildfires by reinforcing the standards listed in SDG&E Electric Standard Practice 113.1—Operations and Maintenance Wildland Fire Prevention Plan and increasing use of prevention resources. All SDG&E field personnel are required to receive annual training on fire prevention. All non-emergency work is restricted in areas where there is extreme fire potential.

During this event, SDG&E strategically placed observers and field crews at or near the location of the facilities forecast to experience the most severe weather conditions. By

---

<sup>2</sup> See SDG&E's 2020 Wildfire Mitigation Plan for additional information on SDG&E's ongoing wildfire prevention and mitigation work:  
<https://www.sdge.com/sites/default/files/regulatory/SDG%26E%202020%20Wildfire%20Mitigation%20Plan%20Revised%2003-02-2020.pdf>

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

staging personnel at these locations, SDG&E was able to quickly react to changes in conditions and ensure energized lines are operated safely with no imminent threats to their integrity, and that de-energized lines are inspected for safety prior to re-energization.

**Conditions to Conclude the PSPS Event**

Similar to the decision to initiate a PSPS event, the decision to conclude a PSPS event is based on a number of factors.

During this event, SDG&E Meteorologists utilized real time weather station data and forecast models to determine the Santa Ana winds has peaked and were trending weaker, without any indication of potential resurgence of conditions that could necessitate additional PSPS.

Based on favorable weather conditions, SDG&E's UIC approved patrols of the de-energized lines. Once patrols were completed and confirmed there was no damage to the infrastructure, the UIC approved re-energization of the devices.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**2. All factors considered by SDG&E in its decision to de-energize, including wind speed, temperature, humidity and vegetation moisture in the vicinity of the de-energized circuits.**

**Response:**

The decision to de-energize for public safety is not based on a single factor; numerous criteria are considered when making this decision. For the PSPS events in scope of this report, key bases for the decisions to de-energize included, but were not limited to:

- Wind climatology of each circuit or circuit segment to include the 95th and 99th percentile winds from nearly 10 years of collecting weather data every 10 minutes from every station;
- Infrastructure in temporary configurations due to construction activities;
- Observer reports of imminent threats to power lines, including vegetation encroaching overhead lines, wire movement, debris blown into lines;
- Fire-suppression resources availability were potentially unavailable due to high winds and time of day should an ignition occur;
- The outages could be targeted to minimize impacts to customers;
- The potential impact to customers with access and functional needs, including the number of Medical Baseline (MBL) customers on each de-energized circuit, recognizing that de-energizations can result in significant impacts to these customers;
- Accessibility could be constrained should an ignition occur; and
- A review of active outages on SDG&E’s system.

In addition to the factors listed above, the following conditions were considered when making the decision to implement PSPS during each weather event:

**Weather Event #1: November 26–28, 2020**

- The RFW issued by the NWS indicated the combination of strong winds and critically low relative humidity would result in critical fire weather conditions with the potential for extreme fire behavior;
- The potential for wind gusts in excess of 40 mph in the most wind prone areas of San Diego County;
- The SAWTI was rated Moderate (“Upon ignition, fires will grow rapidly and will be difficult to control”) on November 27 and Marginal (“Upon ignition, fires may grow rapidly”) on November 28;
- SDG&E’s FPI was Elevated for all districts, indicating the potential for large fires should an ignition occur;
- The Predictive Services unit of the Southern California Geographic Area Coordination Center (GACC) designated zones SC08 and SC11 as “High Risk” in their 7-Day Significant Fire Potential product;
- Live Fuel Moisture values were critically dry (~65%), Dead Fuel Moisture values were moderate to low (6-9%), and grasses were almost fully cured;
- No observer reports of imminent threats to power lines, including tree branches encroaching overhead lines, wire movement, debris blown into lines.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**Weather Event #2: December 2–5, 2020**

- The RFW and High Wind Warning issued by NWS indicated the combination of strong winds and critically low relative humidity would result in critical fire weather conditions with the potential for extreme fire behavior;
- The National Oceanic and Atmospheric Administration’s Storm Prediction Center indicated Extremely Critical fire weather for the San Diego County mountains and advised of critical fire weather for the coastal ranges of Southern California;
- The potential for wind gusts in excess of 60 mph in the most wind prone areas of San Diego County;
- The SAWTI was rated Moderate (“Upon ignition, fires will grow rapidly and will be difficult to control”) on December 2-3 and Marginal (“Upon ignition, fires may grow rapidly”) on December 4-5;
- SDG&E’s FPI was Extreme for all inland districts and Elevated for coastal districts, during the peak of this portion of the event on December 3 and 4, indicating the potential for large fires should an ignition occur;
- The Predictive Services unit of the Southern California GACC designated zones SC08 and SC11 as “High Risk” in their 7-Day Significant Fire Potential product;
- Live Fuel Moisture values were critically dry (~65%), Dead Fuel Moisture values were low (4-6%), and grasses were almost fully cured;
- Observer reports of imminent threats to power lines, including tree branches encroaching overhead lines, wire movement, debris blown into lines.

**Weather Event #3: December 6–9, 2020**

- The RFW and High Wind Warning issued by NWS indicated the combination of strong and potentially damaging winds and critically low relative humidity would result in critical fire weather conditions with the potential for extreme fire behavior;
- The potential for wind gusts in excess of 45 mph and as high as 75 mph in the most wind prone areas of San Diego County;
- The SAWTI was rated Moderate (“Upon ignition, fires will grow rapidly and will be difficult to control”) on December 7-8 and Marginal (“Upon ignition, fires may grow rapidly”) on December 9;
- SDG&E’s FPI was Extreme at the peak of the event on December 8 for all inland districts and Elevated for coastal districts, indicating the potential for large fires should an ignition occur;
- The Predictive Services unit of the Southern California GACC designated zones SC08 and SC11 as “High Risk” in their 7-Day Significant Fire Potential product;
- Live Fuel Moisture values were critically dry (~65%), Dead Fuel Moisture values were low (4-6%), and grasses were almost fully cured;
- Observer reports of imminent threats to power lines, including tree branches encroaching overhead lines, wire movement, debris blown into lines.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**3. An explanation of how the utility determined that the benefit of de-energization outweighed potential public safety risks.**

**Response:**

Starting in 2017, SDG&E has experienced a notable increase in strong Santa Ana wind conditions leading to an increased impact from PSPS events. SDG&E’s 2020 wildfire season demonstrates a continuation of these extreme fire weather events impacting its region. Specifically, a series of strong Santa Ana Winds impacted SDG&E’s service territory from November 26 through the first week of December at which time the NWS classified the weather as “Extremely Critical.”

**Weather Event #1: November 26–28, 2020**

The first in the series of Red Flag Warnings that occurred during this Santa Ana wind event was a locally moderate event. Wind speed records were not set at any of SDG&E’s weather stations with the average peak gusts across the 20 windiest locations reaching 48 mph. Peak wind gusts exceeded their 99% measurements at eight weather stations, indicating that the stronger winds in this event remained localized to the mountain passes and canyons and did not significantly impact the populations SDG&E serves. Based on this information as well as considering the factors outlined in Response 2 above, SDG&E determined that the benefit of de-energization did not outweigh the potential public safety risk.

**Weather Event #2: December 2–5, 2020**

Weather Event #2 was the strongest of the three Red Flag Warnings the occurred during this Santa Ana Wind event. Wind speed records were set at 43 of SDG&E’s weather stations with the average peak gusts across the 20 windiest locations topping 70 mph for the first time since SDG&E built its weather network back in 2010. Additionally, across the SDG&E weather network, peak wind gusts exceeded their 99% measurements at 126 weather stations, driving winds out of the mountains and into lower elevation communities, increasing the areas impacted by PSPS during this event. Based on this information as well as considering the factors outlined in Response 2 above, SDG&E determined that de-energization was necessary to protect public safety and the benefit of de-energization outweighed the potential public safety risk.

**Weather Event #3: December 6–9, 2020**

The third and final Red Flag Warnings that occurred during this Santa Ana Wind event was a moderate to strong event which brought widespread winds to the higher elevations, though strong winds never fully pushed down to the coastline. Wind speed records were set at two of SDG&E’s weather stations with the average peak gusts across the 20 windiest locations was 59 mph. Additionally, across the SDG&E weather network, peak wind gusts exceeded their 99% measurements at 67 weather stations, with these windiest areas generally being across the higher elevation. Based on this information as well as considering the factors outlined in Response 2 above, SDG&E determined that de-energization was necessary to protect public safety and the benefit of de-energization outweighed the potential public safety risk.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

- 4. The time, place and duration of the event and whether the areas affected by the de-energization are classified as Zone 1, Tier 2, or Tier 3 per the definition in General Order 95, Rule 21.2-D. If service is not restored within 24-hours of the termination of the PSPS event, SDG&E must explain why it was not able to timely restore service.**

**Response:**

**Weather Event #1: November 26–28, 2020**

Not applicable for Weather Event #1, as no customers were impacted by de-energizations during this weather event.

**Weather Event #2: December 2–5, 2020**

<b>Circuit Device</b>	<b>Community</b>	<b>Estimated Start Date and Time</b>	<b>Estimated Restore Date and Time</b>	<b>Duration (Hrs.)</b>	<b>HFTD</b>

SDG&E was not able to safely re-energize one device within 24 hours of permission by the UIC to patrol. For additional details on the steps taken by SDG&E to safely re-energize, please refer to the Response to #14 below.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

<b>Device</b>	<b>Time to Restore (hours)</b>	<b>Reason Restoration is Greater than 24 Hours</b>
WR-12KV-212	26.75	A portion of this circuit was delayed over 24 hours affecting 146 customers due to requirements in that area for helicopter patrol. The helicopter assigned to this circuit was not able to fly due to unexpected mechanical issues and there was not enough daylight time to safely perform patrols using another helicopter after completing patrols on other circuits.

**Weather Event #3: December 6–9, 2020**

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**5. Describe how sectionalization was considered/ implemented and the extent to which it impacted the size and scope of the de-energization event.**

**Response:**

**Weather Event #1: November 26–28, 2020**

SDG&E did not utilize sectionalization to mitigate customer impacts during this event, as no de-energizations for public safety were initiated.

SDG&E used sectionalizing devices to send warning messages and notifications of potential PSPS impacts to specific, more precise customer groups.

**Weather Event #2: December 2–5, 2020**

SDG&E utilized sectionalization during this weather event to reduce PSPS customer impacts. Leveraging real-time data from the SDG&E weather network in the area of the severe weather, SDG&E was able to confirm the strong winds were isolated to portions of the majority of impacted circuits. As a result, SDG&E de-energized only portions of 31 of the 80 circuits impacted during this weather event, as opposed to the entire circuits. By de-energizing only portions of the circuits, SDG&E was able to avert PSPS impacts for approximately 23,890 customer accounts.

Additionally, in an effort to limit the number of customers potentially in scope for this event, where possible, SDG&E performed offloading of customers on circuits in certain areas forecast to experience the most severe fire risk conditions. In total, SDG&E rerouted service to other circuits for approximately 892 customer accounts<sup>4</sup> that are normally served by circuits that were being monitored for potential PSPS outages during this weather event.

SDG&E also used sectionalizing devices to send warning messages and notifications of potential PSPS impacts to specific, more precise customer groups.

---

<sup>4</sup> Please note that a subset of these customers were included in the table above as they were offloaded in conjunction with a sectionalizing device.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**Weather Event #3: December 6–9, 2020**

SDG&E utilized sectionalization during this weather event to reduce PSPS customer impacts. Leveraging real-time data from the SDG&E weather network in the area of the severe weather, SDG&E was able to confirm the strong winds were isolated to portions of the majority of impacted circuits. As a result, SDG&E de-energized only portions of 17 of the 26 circuits impacted during this weather event, as opposed to the entire circuits. By de-energizing only portions of the circuits, SDG&E was able to avert PSPS impacts for approximately 9,558 customer accounts.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

Additionally, in an effort to limit the number of customers potentially in scope for this event, where possible, SDG&E performed offloading of customers on circuits in certain areas forecast to experience the most severe fire risk conditions. In total, SDG&E rerouted service to other circuits for approximately 637 customer accounts<sup>5</sup> that are normally served by circuits that were being monitored for potential PSPS outages during this weather event.

SDG&E also used sectionalizing devices to send warning messages and notifications of potential PSPS impacts to specific, more precise customer groups.

---

<sup>5</sup> Please note that a subset of these customers were included in the table above as they were offloaded in conjunction with a sectionalizing device.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**6. The number of affected customers, broken down by residential, medical baseline, commercial/industrial and other.**

**Response:**

The customer counts provided below also include customers that were still receiving electricity from the temporary microgrid configurations that SDG&E was able to establish at certain locations. In response to Question #17 below, SDG&E provides a summary of the microgrid locations and customers served by the microgrid. While the customers were de-energized from the larger grid, the microgrid allowed for customers within a specified electrical boundary to receive power from the resources also located within that electrical boundary.

**Weather Event #1: November 26–28, 2020**

No customers were impacted by de-energizations during this weather event.

**Weather Event #2: December 2–5, 2020**

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**7. Describe any wind-related damage to SDG&E’s overhead powerline facilities in the areas where power was shutoff.**

**Response:**

The following describes wind-related damage found on post-patrols of SDG&E’s overhead powerline facilities in areas that experienced PSPS.

**Weather Event #1: November 26–28, 2020**

No damage was found on SDG&E’s overhead powerline facilities.

**Weather Event #2: December 2–5, 2020**

Damage was found at 14 locations during SDG&E’s post-patrols of its overhead powerline facilities impacted by PSPS. The damage is summarized in the table below.

<b>Circuit</b>	<b>District</b>	<b>General Cause</b>	<b>Equipment</b>
TL637	Transmission	RFW/PSPS	Broken Fiber Optic
C1138	Eastern	RFW/PSPS	Cross Arm
C1458	Mountain Empire	RFW/PSPS	Cross Arm
COK1	Ramona	RFW/PSPS	Loose Bond Wire
C210	Ramona	RFW/PSPS	Loose TELCO
COK1	Ramona	RFW/PSPS	Loose Transformer Bolt
C210	Ramona	RFW/PSPS	Loose TELCO
C971	Ramona	RFW/PSPS	Conductor
C449	Mountain Empire	RFW/PSPS	Loose TELCO
C358	Eastern	RFW/PSPS	Loose TELCO
C448	Mountain Empire	RFW/PSPS	Loose TELCO
C220	Ramona	Tree Contact	Conductor, OH
C358	Eastern	Tree Contact	Service, OH
C971	Ramona	RFW/PSPS	Cross Arm

**Weather Event #3: December 6–9, 2020**

Damage was found at 5 locations during SDG&E’s post-patrols of its overhead powerline facilities impacted by PSPS. The damage is summarized in the table below.

<b>Circuit</b>	<b>District</b>	<b>General Cause</b>	<b>Equipment</b>
C358	Eastern	Tree Contact	Conductor, OH
C971	Ramona	RFW/PSPS	Bushing
C1030	Ramona	RFW/PSPS	Cross Arm
C210	Ramona	RFW/PSPS	Conductor, OH Secondary
C210	Ramona	RFW/PSPS	Cross Arm

See Appendix 6 for photos of weather-related damages to SDG&E facilities.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

- 8. Provide a description of the customer notice and any other mitigation provided by SDG&E. Include a copy of all notifications, the timing of notifications, the methods of notifications and who (IOU or public safety partner) made the notification. If SDG&E failed to provide notifications according to the timelines set forth in the CPUC PSPS Guidelines (see D.19-05-042), include an explanation of the circumstances that resulted in such failure. Include the number of false communications made and an explanation for any false communications by citing the sources of changing data.**

**Response:**

In preparation for the 2020 wildfire season, SDG&E undertook additional measures to mitigate impacts to customers with access and functional needs (AFN), including MBL customers. Specifically, SDG&E launched new partnership models with 2-1-1 San Diego and 2-1-1 Orange County to support customers with AFN during PSPS. Through these support models, AFN customers may receive services such as assisted transportation, hotel vouchers, and food resiliency. In addition, 2-1-1 amplifies SDG&E's PSPS notifications to more broadly reach the AFN community.

As part of its Generator Grant Program, SDG&E offered portable backup battery units (e.g., Goal Zero Yeti 3000) to MBL customers who were impacted by PSPS in 2019. As of October 2020, SDG&E has provided more than 1,400 backup batteries, including ~75 specifically targeted to MBL customers in Mobile Home Parks who reside in the HFTD.

In addition, to date, SDG&E has completed the installation of 32 generators as part of the Whole Home Generator Program, thus providing those customers the option to remain energized during the PSPS event.

**Weather Event #1: November 26–28, 2020**

Starting on November 25, SDG&E notified customers in areas that would potentially be impacted by PSPS on November 27. Notifications were made via outbound dialer, email, text messaging, and personal phone calls. Helpful information was also shared on SDG&E's websites (SDGE.com and SDGEnews.com), SDGE Alerts app, SDG&E's social media channels (Twitter, Facebook, Instagram) and with local, state, and national news media outlets.

In addition to the support described above, SDG&E contracted with Facilitating Access and Coordinated Transportation (FACT) to provide accessible transportation to customers with access and functional needs 7 days a week to hotels or other safe locations.

**Weather Event #2: December 2–5, 2020**

Starting on December 1, SDG&E notified customers in areas that would potentially be impacted by PSPS on December 2. Notifications were made via outbound dialer, email, text messaging, and personal phone calls. Helpful information was also shared on SDG&E's websites (SDGE.com and SDGEnews.com), SDGE Alerts app, SDG&E's

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

social media channels (Twitter, Facebook, Instagram) and with local, state, and national news media outlets.

SDG&E was not able to provide notification to 4,465 customers on the following devices:

<b>Device</b>	<b>Meters De-Energized Without Notification</b>	<b>Date</b>
236-1535	184	12/2/2020
450-88R	1,045	12/2/2020
PO-12KV-476	690	12/2/2020
728-690	1,000	12/3/2020
920-735AE	1,503	12/3/2020
ST-12KV-221	1	12/3/2020
ST-12KV-222	42	12/3/2020

These missed notifications may be attributed to non-communicative SCADA switches, which require SDG&E’s Electric Distribution Operations to de-energize upstream of the intended sectionalizing device. Additionally, wind speeds exceeded their thresholds for several circuits and SDG&E did not have crews readily available on-site to de-energize the devices manually as weather conditions materialized. Further, some devices were not included in SDG&E’s potentially impacted circuit list because initial weather forecasts did not indicate areas of concern for those circuits.

In addition to the support described above, SDG&E began a new partnership with Jewish Family Services to provide direct support to AFN customers in the form of shelf-stable food and ice, resiliency kits, access to partner lodging, welfare checks, and transportation.

As this event occurred during cold temperatures, SDG&E worked with the Red Cross, Salvation Army and Meals on Wheels to deliver blankets to impacted customers and to SDG&E’s Community Resource Centers.

For this event, along with Weather Event #3, SDG&E delivered portable generator batteries to customers experiencing severe medical challenges as a result of loss of power, whose needs could not be addressed through hotels, transportation, and food delivery.

**Weather Event #3: December 6–9, 2020**

Starting on December 6, SDG&E notified customers in areas that would potentially be impacted by PSPS on December 7. Notifications were made via outbound dialer, email, text messaging, and personal phone calls. Helpful information was also shared on SDG&E’s websites (SDGE.com and SDGEnews.com), SDGE Alerts app, SDG&E’s social media channels (Twitter, Facebook, Instagram) and with local, state, and national news media outlets.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

SDG&E was not able to provide notification to 1,045 customers on the following devices:

<b>Device</b>	<b>Meters De-Energized Without Notification</b>	<b>Date</b>
450-88R	1,045	12/7/2020

Please see the explanation in Weather Event #2 for missed notifications.

In addition to support described above, SDG&E launched a new resiliency kit delivery pilot to deliver resiliency items to AFN customers who were experiencing a PSPS. Customers were contacted and asked if they were in need of water, snacks, solar powered radio/phone charger, and if so, these items were delivered. If additional services were needed, 2-1-1 was contacted immediately for additional partner services.

- See Appendix 1 for detailed information regarding customer notifications
- See Appendix 2 for details of notifications to Public Safety and Community Partners
- See Appendix 3 for details of notifications to the CPUC
- See Appendix 4 for details of notifications to Government Officials/Representatives
- See Appendix 5 for details of notifications to Cal OES

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

9. For those customers where positive or affirmative notification was attempted, an accounting of the customers (which tariff and/or access and functional needs population designation), the number of notification attempts made, the timing of attempts, who made the notification attempt (utility or public safety partner) and the number of customers for whom positive notification was achieved.

**Response:**

**Weather Event #1: November 26–28, 2020**

All customer notifications were made by SDG&E. During this event, SDG&E successfully made affirmative notifications to MBL customers who were not reached by phone. SDG&E completed 6 in-person notifications for customers during this event.

**Weather Event #2: December 2–5, 2020**

All customer notifications were made by SDG&E. During this event, SDG&E successfully made affirmative notifications to MBL customers who were not reached by phone. SDG&E completed 151 in-person notifications for customers during this event.

**Weather Event #3: December 6–9, 2020**

All customer notifications were made by SDG&E. During this event, SDG&E successfully made affirmative notifications to MBL customers who were not reached by phone. SDG&E completed 90 in-person notifications for customers during this event.

See Appendix 1 for detailed information regarding customer notifications.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**10. The address of each community assistance location during a de-energization event, describe the location (building, trailer, etc.), describe the assistance available at each location, and the days and hours it was open.**

**Response:**

**Weather Event #1: November 26–28, 2020**

SDG&E did not open any Community Resource Centers (CRCs) during Weather Event #1, as no customers were de-energized during this weather event.

**Weather Event #2: December 2–5, 2020**

SDG&E opened 10 CRC during this event. Resources at the CRCs were offered as “drive thru” services in order to maintain COVID-19 social distancing protocols. Each CRC is a fixed facility, however, due to COVID-19 concerns, SDG&E staged a mobile command trailer or motor home adjacent to the fixed facility for employee use only and to act as a base of operation. The table below summarizes the CRC locations that were activated, site description, resources provided, and days/hours of operations.

Approximately 2,667 customers (cars) received resources at the CRC during this weather event. CRC volunteers observed that many visiting customers brought fellow neighbors in their car to CRCs, disregarding COVID-19 social distancing protocols. It appears that during PSPS events, customers congregate with fellow neighbors in an attempt to share resources, including their vehicles. Many of these customers do not own a personal vehicle, and therefore, they rely heavily on their neighbor’s cars and charity. Most vehicles appeared to represent 2-3 households; thus, SDG&E estimates it provided resources to roughly 8,000 households.

In addition to the typical resources available at SDG&E’s CRCs (e.g., water, light snacks, ice, internet access, medical device charging, etc.), SDG&E also provided “care kits.” These care kits contained: a face mask, an emergency radio (crank/solar/battery operated), 150W car power inverter, an insulated bag (for perishables like food and medications), a solar powered energy bank, a solar powered LED light bulb, a cooling pad, an emergency first-aid kit, an SDG&E blanket, an SDG&E 5-gallon bucket, a small roll of duct tape, and a sharpie pen.

The standard hours of operation of SDG&E’s CRCs are 8am – 10pm; however, CRCs closed upon full restoration of power on December 4 for Weather Event #2 and December 9 for Weather Event #3 respectively. This means that not all sites remained open through 10pm as power was restored to surrounding communities as restorations were completed.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

<b>Location</b>	<b>Site Description</b>	<b>Resources Provided</b>	<b>Days/Hours of Operation</b>

**Weather Event #3: December 6–9, 2020**

SDG&E opened six CRCs during this event. Resources at the CRCs were offered as “drive through” services in order to maintain COVID-19 social distancing protocols. 419 customers (cars) received resources at the CRCs during this event and just as with the prior event, a minimum of 2-3 households were represented, bringing SDG&E’s estimate for total served households up to 1,257 for this shorter duration event. Assumptions and descriptions of the table below remain consistent with the assumptions provided for Weather Event #2 above.

<b>Location</b>	<b>Site Description</b>	<b>Resources Provided</b>	<b>Days/Hours of Operation</b>
9545 River Drive Descanso, CA 91916	Building + Trailer	Bottled water, light snacks, Wi-Fi access, medical device charging, ice, outage updates, water truck for animals, portable restrooms, cold weather blankets, hand warmers, and care kits (while supplies lasted).	Dec 7-9 8am - 10pm

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**11. A description and evaluation of engagement with local and state public safety partners and community partners in providing advanced outreach/notification during the PSPS event.**

**Response:**

SDG&E works throughout the year leading up to wildfire season on education and outreach with its local and state public safety partners and community partners. In 2020, education and outreach included in-person tours and trainings. Due to the COVID-19 pandemic, SDG&E has conducted its education and outreach through virtual tours, webinars and trainings.

SDG&E worked extensively with state and regional partners throughout these PSPS events, including extensive and multiple daily briefings with representatives from CalOES, CPUC, CalOES Tribal Affairs, County OES and 2-1-1. Additionally, SDG&E partnered with San Diego County OES, AFN Working Group, 2-1-1 San Diego, 2-1-1 Orange County, and community-based organizations (CBOs) to amplify key messaging through their databases and social media channels, and to translate PSPS notification into other languages. Updates on the PSPS event, including tips and a link to sign up for notifications, were sent to more than 750 community and public safety partners.

The following is a description of specific engagement during the various weather events.

**Weather Event #1: November 26–28, 2020**

SDG&E exercised its PSPS notification protocols and remained engaged with its partners, however, no customers were de-energized.

**Weather Event #2: December 2–5, 2020**

Given this event was scoped to potentially impact more customers and circuits than the prior event, SDG&E established twice-a-day, half-hour check-in calls for status updates with its public safety partners that operate critical facilities. The intent of these calls was to provide updates on the current situation, potential circuits that could be impacted, and more importantly, establish an open line for customers to ask question throughout the event. SDG&E had Account Executives, liaisons, and other customer facing representatives participate in these calls, as available. It is important to note that these were non-scripted calls without a formal agenda; they were simply a forum to encourage discussion and engagement.

The majority of those who attended expressed appreciation for these calls and indicated it was beneficial for situational awareness which helps inform their operational side. These calls continued for the duration of the event.

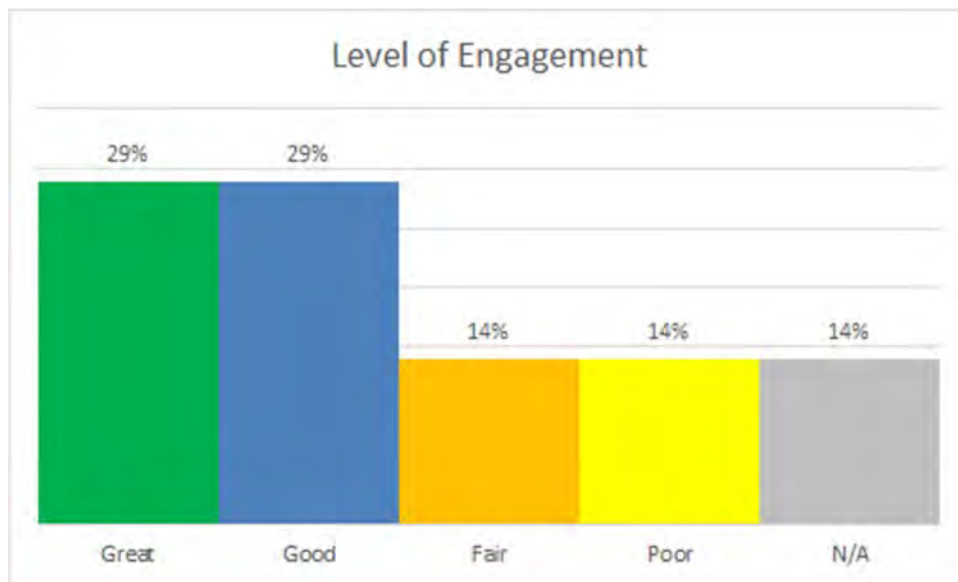

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**Weather Event #3: December 6–9, 2020**

As with the preceding weather event, SDG&E established twice-a-day, half-hour check-in calls for status updates with its public safety partners that operate critical facilities.

To evaluate engagement with local and state public safety partners, SDG&E holds after action events with partners at the conclusion of wildfire season. Overall, feedback has been positive following advanced outreach.

Immediately following the PSPS event, SDG&E distributed a one question online survey requesting public safety partners rate SDG&E’s level of engagement with their organization before and during the November 26 – December 9 PSPS events. SDG&E received seven responses to the survey. Please see below for the level of engagement results of the survey:

*“SDG&E has been a great partner through PSPS events, and we greatly appreciate their support” ~ San Diego County OES representative*

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**12. The local communities’ representatives SDG&E contacted prior to de-energization and the date on which they were contacted.**

**Response:**

Please see Appendix 2 for details of notifications to Public Safety and Community Partners.  
Please see Appendix 4 for details of notifications to Elected Officials and Representatives.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**13. Summarize the number and nature of complaints received as a result of de-energization event and include claims that are filed against SDG&E because of the de-energization.**

**Response:**

SDG&E received the following complaints and claims related to the PSPS events between November 26 – December 9. The claims are broken down per weather event and the complaints are compiled in one table below.

As of December 22, 2020, SDG&E received the following claims for each weather event:

	<b>Weather Event #1 November 26-28, 2020</b>	<b>Weather Event #2 December 2–5, 2020</b>	<b>Weather Event #3 December 6–9, 2020</b>
Property damage	0	38	3
Solar related	0	1	0
Food loss	0	217	14
Inconvenience of being without power	0	25	2
Business loss	0	5	1
Hotel stays	0	12	1
Generator	0	5	2
<b>TOTAL</b>	<b>0</b>	<b>303</b>	<b>23</b>

As of December 22, 2020, SDG&E has received 60 complaints for the three PSPS events covered in this report. Please see below for details regarding the complaints:

<b>#</b>	<b>Brief Description</b>	<b>Resolution Steps</b>	<b>Date Received</b>
1	Customer states she is upset she received a possible outage call during a holiday weekend and if that were to happen she will not get to see her grandchildren.	Complaint submitted	11/30/2020
2	PSPS Complaint	Complaint submitted	12/3/2020
3	Customer upset about PSPS and requested to file a complaint stating SDG&E should have better equipment to withstand this type of weather and prevent shut offs.	Complaint submitted	12/3/2020
4	Customer upset electricity was turned off due to public safety and wanted to submit a complaint that when winds die down, electricity should be restored.	Complaint submitted	12/3/2020
5	Customer requested formal complaint filed regarding PSPS event and loss of food.	Complaint submitted; Customer advised that claim can be filed for loss of food	12/3/2020

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

<b>#</b>	<b>Brief Description</b>	<b>Resolution Steps</b>	<b>Date Received</b>
6	Customer wanted to vent frustration with length of current outage stating they do not have the means to stay in home until then.	Complaint submitted	12/3/2020
7	Customer is unhappy that PSPS is still occurring during COVID since they are stuck in their home.	Complaint submitted; Customer just wanted us to know that she is extremely unhappy	12/3/2020
8	Customer stated that they drove around San Diego and alleges that he found no evidence of high wind, fire or apparent danger that would warrant a PSPS.	Attempted to contact customer via phone; left voicemail	12/3/2020
9	PSPS Complaint	Customer plans to file a claim when power is restored	12/4/2020
10	PSPS Complaint	Attempted to contact customer via phone; left voicemail	12/4/2020
11	Customer upset about PSPS.	Complaint submitted	12/4/2020
12	Customer states utility sued him over land to complete pole replacement project and claims we promised project would avoid future power outages but he was still de-energized for public safety.	Discussed concerns with customer.	12/4/2020
13	Customer requested to file complaint about how circuits and grids are decided.	Attempted to contact customer via phone; left voicemail	12/3/2020
14	Customer is on the Medical Baseline rate and has no means to drive to a CRC for supplies. They are all electric and have no water for themselves or pets. Customer states SDG&E should offer generators for people that cannot leave their homes and that this is bad timing due to the shelter in place order.	Complaint submitted; Customer advised to call 211	12/2/2020
15	Customer believes SDG&E should have alternative options for customers in the back country where they rely on power for their wells stating that not having water in a high fire risk area is very dangerous. Customer also suggests having more CRCs closer to affected areas.	Listened to customers feedback and referred to 211 and closest CRC	12/4/2020
16	PSPS Complaint	Complaint submitted	12/4/2020
17	PSPS Complaint	Attempted to contact customer via phone; left voicemail	12/4/2020

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

<b>#</b>	<b>Brief Description</b>	<b>Resolution Steps</b>	<b>Date Received</b>
18	Customer states there are no winds in their area and although they have no power, their neighbors do. Customer also claims they did not receive advance notification to prepare.	Complaint submitted; Customer did not want to be contacted	12/4/2020
19	PSPS Complaint	Attempted to contact customer via phone; left voicemail	12/4/2020
20	Customer requested to file complaint stating they were not notified that their circuit (#355) was going to be shut off due to PSPS.	Complaint submitted	12/4/2020
21	Customer unhappy with PSPS event.	Complaint submitted	12/4/2020
22	Customer was upset with reliability of service for PSPS and requested credit for entire month of service.	Complaint submitted	12/4/2020
23	Customer feels SDG&E is discriminating against customers in the hills/valley during PSPS and suggested that we invest in lights/GPS equipment to be able to do restoration at night.	Listened to customer feedback/comments and apologized for the delay.	12/4/2020
24	PSPS Complaint	Complaint submitted	12/4/2020
25	Customer feels SDG&E should provide more notice for PSPS than what was provided.	Complaint submitted	12/4/2020
26	Customer was upset they were not notified about PSPS.	Complaint submitted	12/3/2020
27	Customer requested to file a claim for food loss and lost wages and that a rate be created for those who live in fire risk area. Customer also requested a timeline for undergrounding electric service.	Resolution pending	12/4/2020
28	Customer states PSPS' are a lie to hide the insufficient power supply and these shut off's are so we can survive with the power we have. They state the community is aware and will fight it going forward.	Complaint submitted	12/4/2020
29	CPUC customer call back request regarding PSPS outage	Resolution pending	12/4/2020
30	Customer upset with the length of time for PSPS event claiming winds were calm yesterday and power not restored until today.	Discussed concerns with customer and advised them of process to restore power	12/4/2020

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

#	Brief Description	Resolution Steps	Date Received
31	Customer is blind, their spouse uses a nebulizer and they are on a medical baseline rate. They are concerned about how much longer they will have to go without power and would like a generator for future outages as well as supplies brought to their home.	Complaint submitted; Customer advised to call 211; Email sent to program management for generator assistance program	12/4/2020
32	Customer was upset that business' near their home have power while they are still without stating it's unfair and restoration is not being done in a timely manner. Customer wants changes made in the future.	Attempt to contact customer via phone was unsuccessful	12/4/2020
33	PSPS Complaint	Complaint submitted	12/7/2020
34	Mr. states we are not organized and he feels we are penalizing him because their area was last to be restored when neighbors on the same circuit (#520) around the block had power. Mr. request detailed info on why that is.	Complaint submitted	12/7/2020
35	PSPS Complaint	Complaint submitted	12/7/2020
36	Customer wanted to express their concern with PSPS commenting on the potential for lawsuits for someone that is sick and without power passing away. They want SDG&E to consider all the people who are currently at home.	Complaint submitted	12/8/2020
37	Customer wishes to submit a formal complaint due to PSPS stating they are at risk. Customer states there is no wind in their area and they are upset since they also went thru the previous PSPS last week. Customer stated it will be very cold and they just replaced the food they lost.	Complaint submitted	12/8/2020
38	Customer concerned with outage duration, stating they are recovering from surgery, it's cold and winds are low.	Resolution pending	12/8/2020
39	Customer upset that he has experienced two PSPS events and did not receive prior notification. Customer also concerned with the estimated time of restoration provided.	Discussed concerns with customer and advised notification is not always possible	12/8/2020
40	Customer upset; states did not receive a call to let him know the power was going to be turned off for PSPS.	Discussed PSPS concerns with customer	12/8/2020

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

<b>#</b>	<b>Brief Description</b>	<b>Resolution Steps</b>	<b>Date Received</b>
41	Customer requested to submit a complaint due to wind turbines appearing to be energized while other circuits within their service area have been de-energized for public safety. Customer feels that it is unfair that some areas have power and others do not.	Complaint submitted; Attempt to contact customer via phone was unsuccessful	12/8/2020
42	PSPS Complaint	Complaint submitted	12/8/2020
43	Customer concerned with PSPS frequency and estimated restoration.	Resolution pending	12/8/2020
44	Customer upset about PSPS events stating hotel vouchers should be provided to those with medical needs/machines that require electricity to sleep at night.	Advised would forward feedback; issued claim	12/9/2020
45	PSPS Complaint	Discussed customer concerns regarding PSPS	12/9/2020
46	PSPS Complaint	Claim submitted	12/9/2020
47	Customer is upset about PSPS in general.	Complaint submitted	12/9/2020
48	Customer states they fell down the stairs during the PSPS when the electricity went out.	Complaint submitted; Customer did not want to be contacted	12/9/2020
49	Caller would like to file a complaint due to his circuit always being the last circuit to be restored during PSPS events.	Complaint submitted	12/9/2020
50	Customer request to file a complaint regarding PSPS. Customer experienced food loss; is a low-income senior and difficult to replace food. Customer does not believe will be reimbursed. Customer was cold and cannot afford a generator. States 211 was unable to assist.	Complaint submitted	12/9/2020
51	PSPS Complaint	Complaint submitted	12/10/2020
52	Electric Service Reliability Complaint	Called customer and discussed how during severe weather, PSPS are initiated to protect the community from potential fire events	12/10/2020
53	Customer upset about PSPS shut offs. Request a credit and wants claim forms sent to all parties who were affected.	Resolution pending	12/7/2020

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

<b>#</b>	<b>Brief Description</b>	<b>Resolution Steps</b>	<b>Date Received</b>
54	Customer concerned with the recent PSPS outage. Requesting utility restore electric service for about an hour so customers can recharge their equipment (security system, electric gates, etc.).	Discussed concerns with customer and PSPS process.	12/10/2020
55	Customer concerned power remained off after high area winds had stopped, stating power was terminated for SDG&E risk management reasons.	Resolution pending	12/10/2020
56	Customer contests PSPS outage stating wind event did not occur. Customer further states they were without power for 12 hours and expected to last an additional 36 hours claiming information on the website was inaccurate.	Resolution pending	12/10/2020
57	Customer states did not receive advance notification of PSPS event and recommends more proactive procedures for assistance and reimbursement for food loss. Customer requests explanation for outage when neighbors were not affected.	Resolution pending	12/10/2020
58	Customer states they did not receive advance notification of PSPS event that lasted 38 hours. Customer also states they previously registered to receive outage notification via phone and email.	Resolution pending	12/14/2020
59	Customer expressed concerns with lack of notification for the 4-day PSPS outage.	Resolution pending	12/14/2020
60	Customer contests power shut-off and believes compensation should be provided for losses.	Resolution pending	12/21/2020

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**14. Provide detailed timeline and description of the steps taken to restore power.**

**Response:**

SDG&E considers and implements the following steps to restore power:

- Meteorology forecasted winds have peaked and are trending towards safe conditions;
- Approval by UIC to start patrols;
- Full patrol of the de-energized distribution circuit or transmission tie-line to inspect for damages;
- Electric Troubleshooter, observers and/or line crews on-site during re-energization process at key locations;
- Contract fire-fighting resources on-site during re-energization process;
- Check and ensure all personnel are in the clear before re-energization;
- Approval by UIC and Deputy Operations Chief—Electric prior to restoring the circuit/tie-line/device;
- Electric Distribution Operations/Electric Grid Operations directs switching to re-energize the line/segment and notifies EOC of time of re-energization.

**Weather Event #1: November 26–28, 2020**

Not applicable for Weather Event #1, as no customers were de-energized during this weather event.

**Weather Event #2: December 2–5, 2020**

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**15. Lessons learned by SDG&E from the PSPS event.**

**Response:**

SDG&E conducts a comprehensive after-action review program after each EOC activation. Due to the extensive nature of the review, it takes approximately 30 days after the conclusion of the event to ensure feedback was received from internal and external partners. An initial list of lessons learned from the PSPS events between November 26 – December 9 include the following:

1. As SDG&E continues to enhance the platforms where customers can obtain information, ensuring that the sync times on all platforms is coordinated so there is not inconsistent information is important. SDG&E is working with the leads in each of the platforms to coordinate this process.
2. SDG&E needs to continue the open dialogue with CalOES during extended EOC activations with multiple RFW events to ensure all partners understand the data reported.
3. Due to the length of the EOC activation there are some positions identified that need to recruit additional resources to ensure continuity due to low bench strength.
4. The auditing of PSPS outage switch plans takes time to perform, especially with the large volume of circuits and devices being de-energized in this event. The thorough nature of the QA/QC process makes it infeasible to accurately complete prior to the 10-day post-event report submittal. During the auditing process meter counts may slightly change if outage sequencing is changed, due to system automation related to this process. Although there may be small changes to the final outage records, this report represents SDG&E's best understanding of the event at the time of submission of the report.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**16. Recommended updates/modifications the PSPS guidelines adopted in ESRB-8, D.19-05-042, and D.20-05-051.**

**Response:**

Regarding CRC activations and hours of operation, SDG&E has supporting evidence maintaining that PSPS impacted communities rarely use CRC resources between the hours of 8pm – 10pm. Of the 3,086 vehicles that visited SDG&E’s CRC between November 26 – December 9, less than 1% visited a CRC during that timeframe. In total, 16 cars visited between 8pm – 8:30pm, while only one car visited after 9pm. SDG&E submits that this data clearly proves CRCs are most needed, cost-effective, and in the best interest of both the public and employee safety, through 8pm. Keeping CRCs open beyond 8pm is wasteful and unnecessarily puts employees in harm’s way considering the extreme cold, hurricane force winds, and very dark roads needing to be traveled. SDG&E urges the CPUC to consider a revision of the currently mandated operational hours to better align with actual usage and public need, which SDG&E believes is opening at 8am and closing at 8pm.

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**17. Include any other matters that SDG&E believes are relevant to the Commission’s assessment of the reasonableness of SDG&E’s decision to de-energize.**

**Response:**

SDG&E received numerous positive customer communications regarding the successful establishment of the temporary configuration for the microgrids at the following locations throughout SDG&E’s service territory: Julian, Ramona, Butterfield Ranch, Shelter Valley, and Cameron Corners. These customer interactions included phone calls to SDG&E staff and verbal discussions between community members and SDG&E staff on site. The feedback received was positive and appreciative of powering locations key to the community and individual residential customers. While these customers are included in the customer count impacted by de-energizations provided in response to Question #6 above, the customer counts provided below still received electricity from SDG&E through the microgrid configurations and did not suffer loss of power as a result of the PSPS events listed in this post-event report.

A summary of the customers served by these microgrids is included in the table below.

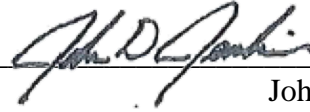

<b>Microgrid Location</b>	<b>Total Customers</b>
Julian	132
Ramona	2
Butterfield Ranch	119
Shelter Valley	221
Cameron Corners	5

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**Message Glossary**

<b>Message</b>	<b>Content</b>
<b>M2: PSPS possible based on weather forecasts</b>	<p>This is SDG&amp;E calling with an important message. Press any key to continue.</p> <p>Alert: Forecasted weather conditions could affect the power lines that serve your community. We are currently monitoring the potential for adverse weather conditions to begin within 24 to 48 hours. These conditions may require us to turn off the power for public safety in your community. If you do experience an outage, the power will stay off until we can safely restore it. Please be prepared to activate your personal family emergency plan. For more information, visit <a href="http://SDGE.com/Ready">SDGE.com/Ready</a></p>
<b>M6A: Overnight PSPS Possible</b>	<p>Warning: weather conditions are forecast to affect the power lines that serve your community. We are currently monitoring adverse weather conditions. These conditions may require us to activate a Public Safety Power Shutoff overnight. The power will stay off until we can safely restore it. Please prepare to activate your personal family emergency plan. For more information including anticipated duration updates, visit <a href="http://SDGE.com/Ready">SDGE.com/Ready</a>.</p>
<b>M7: Active PSPS</b>	<p>This is SDG&amp;E calling with an important message. Press any key to continue.</p> <p>Notification - power is out: due to adverse weather conditions affecting power lines that serve your community, the power has been turned off for public safety. Your power could be out overnight and remain out for up to 72 hours. When conditions improve, our crews will assess the safety of the electrical system and determine when power can be restored. Your safety and the safety of your community is our highest priority. For updated information on outages and restoration times, visit <a href="http://SDGE.com/outages">SDGE.com/outages</a>, check our mobile app, or follow us on Twitter.</p>
<b>M9: PSPS Active Overnight</b>	<p>Power is Out Overnight: Due to dangerous weather conditions affecting power lines that serve your community, the power has been turned off for public safety. Our crews are still actively assessing the damage to the electric system to determine how quickly power can be restored. They will continue to work as long as conditions are safe however your power will remain off overnight. For updated information on outages and restoration times, visit <a href="http://sdge.com/outages">sdge.com/outages</a>, check our mobile app, or follow us on Twitter.</p>

Message	Content
<b>M12: Patrols for Restoration in Progress</b>	<p>This is SDG&amp;E calling with an important message. Press any key to continue.</p> <p>Conditions have improved, and SDG&amp;E crews have begun patrolling power lines to determine when power can be restored to affected communities. Please be aware that some inspections could take place on your property. For up-to-date information on outages and restoration times, visit <a href="http://SDGE.com/Outages">SDGE.com/Outages</a>, check our mobile app, or follow us on Twitter.</p>
<b>M15: Power Restored</b>	<p>This is SDG&amp;E calling with an important message. Press any key to continue.</p> <p>Your power should now be fully restored. If the power is still out, please call us at 1-800-411-7343. Visit <a href="http://SDGENews.com">SDGENews.com</a> for up-to-date information. We appreciate your cooperation during this time of adverse weather conditions.</p>
<b>M15A: No longer at risk for PSPS</b>	<p>Adverse weather conditions have passed in your area. If you received a previous notification about a potential Public Safety Power Shutoff, you are no longer at risk of losing power. For more information, visit <a href="http://sdgenews.com">sdgenews.com</a>. Thank you for your patience.</p>

**SDG&E Report on Public Safety Power Shutoff Events: November 26–December 9, 2020**

**Appendix 2**

**Public Safety and Community Partner Communications: Dates, Times and Recipients**

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

SDG&E’s Regional Public Affairs team provided notifications to local community organizations, tribal governments, elected officials, government representatives, and local jurisdictions throughout this event.

SDG&E’s Emergency Management team provided notifications to CalOES, CalFire, County OES, local jurisdiction Emergency Managers, and dispatch centers.

The tables below include the content of each notification sent by SDG&E’s Regional Public Affairs and Emergency Management:

**Weather Event #1: November 26–28, 2020**

<b>Description of Notification</b>	<b>Date/Time Sent</b>	<b>Content of Notification</b>
1. Public Safety Power Shutoff possible in 48-72 hours.	11/24/2020 12:54PM	<p><b>This is an important safety message from SDG&amp;E.</b> SDG&amp;E is monitoring possible <a href="#">high fire weather risk conditions</a> forecasted to begin within 48-72 hours. These conditions may force SDG&amp;E to shut off power to reduce the risk of a wildfire. If power is shut off, we will not turn it back on until conditions are safe to do so. We know being without electricity is difficult and we appreciate your patience and partnership as we keep safety our top priority during these potential high fire risk conditions. Please monitor your email for more detailed communication tomorrow.</p> <p>For more information, visit <a href="http://sdge.com/ready">sdge.com/ready</a>.</p> <p>Our new Public Safety Power Shutoff mobile App, <a href="#">Alerts by SDG&amp;E</a>, is also available for download for updates for potential and active Public Safety Power Shutoff events.</p> <p>Thank you. SDG&amp;E Liaison Officer</p>
2. Public Safety Power Shutoff possible in 48-72 hours.	11/24/2020 1:04PM	<p><b>This is an important safety message from SDG&amp;E.</b> SDG&amp;E is monitoring possible <a href="#">high fire weather risk conditions</a> forecasted to begin within 48-72 hours. 		<p>Ramona Ramona Branch Library 1275 Main Street Ramona, 92065 Additionally, the locations of these centers can be found at <a href="http://sdge.com/Ready">sdge.com/Ready</a> For residents requiring resource assistance during a Public Safety Power Shutoff please contact 2-1-1 San Diego.</p> <p>The following contacts are available if you need additional information, <a href="mailto:SDGELiaisonOfficerNotifications@sdge.com">SDGELiaisonOfficerNotifications@sdge.com</a> or 858-503-5450, or Emergency Management Duty Officer <a href="mailto:eseodsge@sdge.com">eseodsge@sdge.com</a> or 858-503-5173. Please do not forward this contact information beyond your safety partners. We will continue to provide updates, please monitor your email for additional information.</p> <p>Thank you,</p> <p>SDG&amp;E Liaison Officer</p>
<p>28. SDG&amp;E started restoring power to impacted areas.</p>	<p>12/3/2020 7:06PM</p>	<p><b>This is an important safety message from SDG&amp;E.</b></p> <p>In the last 24 hours, the San Diego region has experienced record-breaking winds during the National Weather Service’s Red Flag Warning. While this extreme weather event is not over, conditions and wind forecasts have improved.</p> <p>We have started restoring power to impacted areas. Approximately 25,000 customers have been restored as darkness fell, with approximately 45,000 that remain without power. For those communities that remain without power, SDG&amp;E crews will begin patrolling power lines tomorrow at sunrise to make sure they are safe to operate and determine when power can be turned back on.</p> <p>We will provide updates once we have determined estimated restoration dates and times. For location details and updated information on outages and when power may be turned back on, please visit <a href="http://SDGE.com/Outages">SDGE.com/Outages</a>, check our PSPS mobile app, or follow us on Twitter.</p> <p>We will be operating drive-thru Community Resource Centers from 8:00 a.m. - 10:00 p.m. in impacted areas. These facilities provide ice, water, snacks, charging for small electronics, up-to-date information, handwarmers and other cold weather</p>

<p>30. SDG&amp;E is determining when power can be turned back on for remaining communities.</p>	<p>12/4/2020 6:37AM</p>	<p><b>This is an important safety message from SDG&amp;E.</b></p> <p>Yesterday, where winds calmed, SDG&amp;E's highly skilled crews worked to restore power to approximately 31,000 customers, with power remaining off to approximately 38,000 customers. The following communities have been partially or fully restored:</p> <ul style="list-style-type: none"> <li>Alpine</li> <li>Barona Reservation</li> <li>Boulevard</li> <li>Campo</li> <li>Campo Reservation</li> <li>Dehesa</li> <li>Descanso</li> <li>Encinitas (Olivenhain)</li> <li>Escondido</li> <li>Ewiiapaayp Reservation</li> <li>Fallbrook</li> <li>Jamul</li> <li>Jamul Reservation</li> <li>Julian</li> <li>Lakeside</li> <li>Pine Valley</li> <li>Poway</li> <li>Rancho Bernardo</li> <li>Rancho Santa Fe</li> <li>San Marcos</li> <li>Valley Center</li> <li>Viejas Reservation</li> </ul> <p>While the Red Flag Warning issued by the National Weather Service remains in effect, the peak of the wind has passed.</p>

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

	<p><b>Restoration efforts are ongoing this morning and crews will work to safely restore as many customers as possible.</b> All of SDG&amp;E's air assets are available to fly air inspections this morning, provided it is safe to do so. Inspections of power lines will resume promptly after sunrise, with the focus of trying to safely restore as many customers as possible. There are still many power lines that require inspection before restoration can take place. Our crews are looking for safety hazards, such as a downed power line, debris or tree branches caught in power lines, and broken hardware. If damage is found, repairs must be made. In some areas that have been de-energized, winds are still gusting. SDG&amp;E's Emergency Operations Center remains active 24/7.</p> <p>We estimate 2,578 Medical Baseline (MBL) customers remain impacted.</p> <p>For updated information on outages and when power may be turned back on, please visit <a href="https://sdge.com/Outages">sdge.com/Outages</a>, check our PSPS mobile app, or follow us on Twitter.</p> <p>We will also be opening the same 10 Community Resource Centers in the following communities at 8:00 a.m. for residents to get resources and up-to-date information:</p> <p>Descanso Community Resource Center 9545 River Drive Descanso, 91916</p> <p>Lake Morena Community Resource Center 29765 Oak Drive Campo, 91906</p> <p>Pine Valley Community Resource Center 28890 Old Hwy 80 Pine Valley, 91962</p> <p>Julian Community Resource Center 17606 Harrison Park Road Julian, 92036</p> <p>Dulzura Community Development Center 1136 Community Building Road Dulzura, 91917</p> <p>Warner Springs Community Resource Center</p>

Good morning,

The National Weather Service's Red Flag Warning expired at 10 p.m. yesterday (December 8). SDG&E continues restoration efforts this morning for customers impacted by this PSPS event. We will continue to provide notifications once per operating period (12 hours) until restoration is complete, or unless additional PSPS occur.

The following is the status of re-energized circuits/devices and remaining de-energized circuits/devices as of 08:00 today. Restoration for all remaining PSPS outages is estimated for 6 p.m. today. Please note, estimated restoration times are subject to change based on field patrol observations and weather conditions.

### **Re-Energized Circuits/Devices**

SDG&E has restored service to 31 devices impacted by this PSPS event, resulting in restoration of service for customers associated with 10,350 accounts, including 753 Medical Baseline (MBL) and 482 Life Support (LS), in portions of following communities:

- Alpine
- Boulevard
- Campo
- Campo Reservation
- Descanso

- Escondido
- La Jolla Reservation
- La Posta Reservation
- Los Coyotes Reservation
- Manzanita Reservation
- Pauma and Yuima Reservation
- Pauma Valley
- Rincon Reservation
- San Pasqual Reservation
- Santa Ysabel
- Santa Ysabel Reservation
- Temecula
- Valley Center
- Viejas Reservation
- Warner Springs

**Remaining De-Energized Circuits/Devices**

PSPS are active for 20 devices, resulting in impacts for customers associated with approximately 5,091 accounts, including 262 MBL and 149 LS, in portions of the following communities:

- Descanso
- Jamul
- Julian
- Mesa Grande Reservation
- Pala
- Palomar Mountain
- Pauma Valley
- Potrero
- Ramona
- Santa Ysabel
- Santa Ysabel Reservation
- Valley Center
- Warner Springs

Additional information, including maps with PSPS boundaries, is available at [SDGE.com](http://SDGE.com).

Hello,

While the National Weather Service's Red Flag Warning continues through 10 p.m. tonight, conditions and wind forecasts have improved in some areas and the High Wind Warning expired this afternoon.

SDG&E has restored service to 30 devices impacted by this PSPS event, resulting in restoration of service for customers associated with 10,320 accounts, including 749 MBL and 480 Life Support (LS), in portions of following communities:

- Escondido
- Valley Center
- Alpine
- Warner Springs
- Rincon Reservation
- Boulevard
- Campo
- Campo Reservation
- Descanso
- La Jolla Reservation
- La Posta Reservation
- Manzanita Reservation
- San Pasqual Reservation
- Santa Ysabel
- Santa Ysabel Reservation
- Pauma Reservation
- Pauma Valley
- Yuima Reservation
- Viejas Reservation
- Temecula
- Los Coyotes Reservation
- Warner Springs

As of 8:03 p.m. today, PPS are active for 21 devices, resulting in impacts for customers associated with approximately 5,121 accounts, including 265 MBL and 151 LS, in portions of the following communities:

- Descanso
- Jamul
- Julian
- La Jolla Reservation
- Mesa Grande Reservation
- Pala
- Palomar Mountain
- Pauma Reservation
- Pauma Valley
- Potrero
- Ramona
- Santa Ysabel
- Santa Ysabel Reservation
- Valley Center
- Warner Springs
- Yuima Reservation

Additional information, including maps with PPS boundaries, is available at [SDGE.com](http://SDGE.com).

Restoration for remaining PSPS outages is currently estimated for Wednesday, December 9 at 18:00. Please note, estimated restoration times are subject to change based on field patrol observations and weather conditions.

Thank you,

**Subject:** RE: SDG&E PSPS Notification: PSPS Initiated Santa Ana Wind Event (12/7-12/9)

Hello,

SDG&E has initiated patrols for restoration of certain circuits/devices impacted by PSPS. At this time, SDG&E expects to complete patrols for 11 devices serving 7,363 customer accounts, including 521 MBL, in the communities listed below. SDG&E has not yet initiated the restoration process in areas forecast to experience continued severe weather.

- Escondido
- Valley Center
- Pala
- Temecula
- Alpine
- Pauma Valley
- San Pasqual Reservation
- Rincon Reservation
- Pala Reservation
- Pauma and Yuima Reservation

There have been no new de-energizations since the previous update. As of 07:38, PSPS have been implemented for 38 circuits/devices, impacting customers associated with 15,309 accounts, including 995 MBL.

Additional information, including maps with PSPS boundaries, is available at [SDGE.com](http://SDGE.com).

**Subject:** RE: SDG&E PSPS Notification: PSPS Initiated Santa Ana Wind Event (12/7-12/9)

SDG&E has implemented additional PPS in areas of San Diego County due to Santa Ana conditions and a Red Flag Warning in effect in the region.

As of December 8 at 1:15, SDG&E has implemented PPS for 38 circuits/devices, impacting 15,309 customer accounts, including 995 MBL, in the following communities:

- Alpine
- Boulevard
- Campo
- Campo Reservation
- Descanso
- Escondido
- Jamul
- Julian
- La Jolla Reservation
- La Posta Reservation
- Manzanita Reservation
- Mesa Grande Reservation

**Subject:** SDG&E PSPS Notification: EOC Activated Santa Ana Wind Event (12/7-12/9)

Good morning,

SDG&E has transitioned its Emergency Operations Center (EOC) from monitoring mode to full activation at 10 a.m. today, December 7 due to Santa Ana conditions and a Red Flag Warning in effect in the region, which could necessitate Public Safety Power Shutoffs (PSPS).

There are no changes to the potential customer impacts since yesterday's update. SDG&E provided notifications to customers associated with 50,483 customer accounts, including 3,527 Medical Baseline (MBL) customers, that could potentially be impacted during this event.

There are currently no active PSPS in SDG&E's service area. Additional information, including maps with anticipated PSPS boundaries is available at [SDGE.com](http://SDGE.com).

**Subject:** SDG&E PSPS Notification: 24 Hour Notification for Santa Ana Wind Event (12/7-12/9)

Hello,

Weather forecasts for Santa Ana conditions in SDG&E's service area remain consistent with yesterday's projections. The National Weather Service Red Flag Warning remains in effect for the San Diego region from 4 a.m. Monday, December 7 through 10 p.m. Tuesday, December 8. Winds are expected to strengthen through the day Monday, peak late Monday night into Tuesday, and decrease through Wednesday, Dec. 9.

SDG&E plans to transition its Emergency Operations Center (EOC) from monitoring mode to full activation at 10 a.m. on Monday, December 7, and remain staffed through the conclusion of the event.

SDG&E is providing notifications today to customers associated with 50,483 customer accounts, including 3,527 Medical Baseline (MBL) customers, that could potentially be impacted during this event. (Note: This is a slight increase from yesterday's projections.) Notifications will be provided to customers and external stakeholders in the following communities:

- Aguanga
- Alpine
- Barona Reservation
- Boulevard
- Campo
- Campo Reservation
- Chula Vista
- Descanso
- El Cajon
- Escondido

- Ewiiapaayp Reservation
- Fallbrook
- Jacumba
- Jamul
- Jamul Reservation
- Julian
- La Jolla Reservation
- La Posta Reservation
- Los Coyotes Reservation
- Manzanita Reservation
- Mesa Grande Reservation
- Mount Laguna
- Nestor
- Pala
- Paula Valley
- Pala Reservation
- Palomar Mountain
- Pauma Valley
- Pauma Reservation
- Pine Valley
- Potrero
- Rainbow
- Ramona
- Ranchita
- Rancho Santa Fe
- Rincon Reservation
- Unincorporated east San Juan Capistrano
- San Marcos
- Santa Ysabel
- Santa Ysabel Reservation
- San Pasqual Reservation
- Sycuan Reservation
- Valley Center
- Warner Springs
- Viejas Reservation

Additional information, including maps with anticipated PSPS boundaries is available at [SDGE.com](http://SDGE.com). Barring changes that require immediate notification, we will provide another update tomorrow, Monday, December 7 when SDG&E's EOC transitions from monitoring mode to fully activated.

Thank you,

**Subject:** SDG&E PSPS Notification: 48 Hour Notification for Santa Ana Wind Event (12/7-12/9)

Good afternoon,

SDG&E's EOC remains in monitoring mode for a Santa Ana wind event expected to impact Southern California starting early next week. The National Weather Service (NWS) has upgraded its Fire Weather Watch to a Red Flag Warning for the San Diego region for 4:00 a.m. Monday, December 7 through 10:00 p.m. Tuesday, December 8 due to critical fire weather conditions.

SDG&E's anticipates ramping up to a full EOC activation at 10:00 a.m. on Monday, December 7 and will remain staffed through the conclusion of the event.

SDG&E plans to provide advanced notification to customers beginning tomorrow, Sunday, December 6. At this time, SDG&E anticipates that 45,245 customer accounts, including 3,162 Medical Baseline (MBL) may be potentially impacted by this event. We continue to monitor the weather forecasts and will provide updated potential customer and community impacts tomorrow, December 6.

Notifications have been provided to public safety partners located in and/or serving the following communities:

- Aguanga
- Alpine
- Barona Reservation
- Boulevard
- Campo
- Campo Reservation
- Chula Vista
- Descanso
- El Cajon
- Escondido
- Ewiiapaayp Reservation
- Fallbrook
- Jacumba
- Jamul
- Jamul Reservation
- Julian
- La Jolla Reservation
- La Posta Reservation
- Los Coyotes Reservation
- Manzanita Reservation
- Mesa Grande Reservation
- Mount Laguna
- Nestor
- Pala
- Paula Valley
- Pala Reservation
- Palomar Mountain
- Pauma Valley
- Pauma Reservation
- Pine Valley
- Potrero
- Rainbow
- Ramona

- Ranchita
- Rancho Santa Fe
- Rincon Reservation
- Unincorporated east San Juan Capistrano
- Santa Ysabel
- Santa Ysabel Reservation
- San Pasqual Reservation
- Sycuan Reservation
- Valley Center
- Warner Springs
- Viejas Reservation

There are no active de-energizations at this time. Unless there are changes requiring immediate notification, we will provide another update tomorrow, Sunday, December 6.

Thank you,  
SDG&E Regulatory Affairs

**Subject:** SDG&E PSPS Notification: EOC Activated for Santa Ana Wind Event (12/7-12/9)

Hello,

A Fire Weather Watch has been issued by the National Weather Service for early next week. SDG&E's EOC remains activated to track weather forecasts for a potential Santa Ana wind event next week. Advanced weather forecasts indicate a potentially strong wind event early to mid-week (December 7–9), with possible impacts throughout SDG&E's service area. At this time, the anticipated customer and community impacts are not confirmed but expected to include SDG&E's Tier 3 (40,240 customers, 2,683 Medical Baseline customers). Additional details will be provided Saturday, December 5, once there is greater confidence in weather forecasts.

If you have any questions, please respond directly to this email; this inbox will be monitored throughout the duration of the event.

Thank you,  
SDG&E Regulatory Affairs

**Attachments:** SDG&E PPS Outages\_Detail\_12-05-2020.xlsx

Hello,

SDG&E has restored service to all customers impacted by the December 3-5 PPS event as of 11:03. Please see the attached spreadsheet for detailed information on all PPS outages and customer impacts associated with this event.

SDG&E's EOC remains in a monitoring mode to track weather forecasts for a potential Santa Ana wind event next week. Advanced weather forecasts indicate a potentially strong wind event early to mid-week (December 7–9), with possible impacts throughout SDG&E's service area. SDG&E provided its 72 hour notification to the CPUC at approximately 19:30 yesterday and will provide its 48 hour notification later today under separate cover.

Thank you,

Good morning,

SDG&E has implemented additional PSPS in areas of San Diego County due to strong Santa Ana winds and a Red Flag Warning in effect in the region. Please see the attached spreadsheet for PSPS outages as of 06:00.

At this time, SDG&E has implemented PSPS for 110 circuits/devices, impacting 73,348 customer accounts, including 4,687 MBL. Please note, estimated restoration times are subject to change based on field patrol observations and weather conditions.

Additional information, including maps with PSPS boundaries, is available at [SDGE.com](http://SDGE.com).

Thank you,  
SDG&E Regulatory Affairs

**Subject:** RE: SDG&E PSPS Notification: EOC Activated for Santa Ana Wind Event

Good evening,

SDG&E has initiated Public Safety Power Shutoffs (PSPS) in areas of San Diego County due to Santa Ana winds and critical fire weather conditions.

Please see the attached spreadsheet on PSPS outages as of 1805. At this time, SDG&E has implemented PSPS for 1 circuit/device, impacting 19 customer accounts, including 2 MBL. A non-PSPS outage occurred at 17:08, impacting 58 customers, including 2 MBL, in an area that is expected to experience critical fire weather during this event. In the interest of public safety, the outage will be treated as a PSPS. As such, this device will remain de-energized until Santa Ana winds and critical fire weather conditions are no longer present. This non-PSPS outage is included in the attached spreadsheet.

Additional information, including maps with PSPS boundaries, is available at [SDGE.com](https://www.sdge.com).

Thank you,

**Subject:** RE: SDG&E PSPS Notification: EOC Activated for Santa Ana Wind Event

Hello,

SDG&E's EOC transitioned from monitoring mode to fully-staffed at 4 p.m. today in response to the strong Santa Ana wind event expected to impact the San Diego region starting after sunset today, Wednesday, December 2. SDG&E's EOC will remain fully activated throughout the duration of this event.

The NWS issued a RFW for the area, which is in effect from 6 p.m. today through 10 p.m. Saturday, Dec. 5. Additionally, NWS issued a High Wind Watch for 1 a.m. tomorrow, Thursday, December 3, through 12 p.m. Friday, December 4.

Based on updated forecasts, SDG&E provided notification yesterday and today to customers associated with 95,154 accounts, including 6,070 MBL customers, in the following communities and tribal reservations:

- Aguanga
- Alpine
- Boulevard
- Barona Reservation
- Borrego
- Campo
- Campo Reservation
- Chula Vista
- Descanso
- Dulzura
- Encinitas
- El Cajon
- Escondido
- Ewiiapaayp Reservation
- Fallbrook
- Jacumba
- Jamul
- Jamul Reservation
- Julian
- La Jolla Reservation
- Lakeside
- La Posta Reservation
- Los Coyotes Reservation
- Manzanita Reservation
- Mesa Grade Reservation
- Mount Laguna
- Nestor
- Oceanside
- Pala
- Pala Reservation
- Palomar Mountain
- Pauma Reservation
- Pauma Valley
- Peñasquitos
- Pine Valley
- Potrero
- Poway
- Ramona
- Ranchita
- Rancho Bernardo
- Rancho Santa Fe
- Rincon Reservation
- San Clemente
- San Juan Capistrano (East)
- San Pasqual Reservation
- San Marcos

- Santa Ysabel
- Santa Ysabel Reservation
- Sorrento Valley
- Sycuan Reservation
- Valley Center
- Viejas Reservation
- Warner Springs

There are no active PSPS in SDG&E's service area at this time. Unless there are other changes requiring notification, our next notification will be made at the time PSPS are initiated. Additional information, including maps and real-time outage updates, is available at [SDGE.com](http://SDGE.com).

If you have any questions, please respond directly to this email. This inbox will be monitored at all times during this event.

Thank you,

**Subject:** RE: SDG&E PSPS Notification: EOC Activated for Santa Ana Wind Event

Hello,

Forecasts for the upcoming Santa Ana wind event have again shifted, with winds expected to begin increasing in strength in the evening tomorrow, Wednesday, December 2. Based on current weather models, conditions warranting PSPS could materialize as early as 6 p.m. tomorrow, Dec. 2. Santa Ana winds and critical fire weather conditions are forecast to continue through Saturday evening. NWS upgraded the Fire Weather Watch for the region to a Red Flag Warning (RFW), in effect from 6 p.m. Wednesday, Dec. 2 through 10 p.m. Saturday, Dec. 5.

We will provide notification today to customers associated with 88,720 accounts, including 5,796 medical baseline (MBL) customers, that could potentially be impacted during this event. Notifications will be provided to customers and external stakeholders in the following communities:

- Aguanga
- Alpine
- Boulevard
- Barona Reservation
- Campo
- Campo Reservation
- Chula Vista
- Descanso
- Encinitas
- El Cajon
- Escondido
- Ewiiapaayp Reservation
- Fallbrook

- Jacumba
- Jamul
- Jamul Reservation
- Julian
- La Jolla Reservation
- Lakeside
- La Posta Reservation
- Mount Laguna
- Nestor
- Oceanside
- Pala

- Palomar Mountain
- Pauma Reservation
- Pauma Valley
- Peñasquitos
- Pine Valley
- Potrero
- Poway
- Ramona
- Ranchita
- Rancho Bernardo
- Rancho Santa Fe
- Rincon Reservation
- San Clemente
- San Juan Capistrano (East)
- San Pasqual Reservation
- San Marcos
- Santa Ysabel
- Santa Ysabel Reservation
- Sorrento Valley
- Sycuan Reservation
- Valley Center
- Viejas Reservation
- Warner Springs

Additional information, including maps with anticipated PSPS boundaries will be posted to [SDGE.com](http://SDGE.com). Barring changes that require immediate notification, we will provide another update tomorrow, Wednesday, December 2.

Thank you,  
SDG&E Regulatory Affairs

**Subject:** RE: SDG&E PSPS Notification: EOC Activated for Santa Ana Wind Event

Hello,

SDG&E's EOC remains activated for a Santa Ana wind event expected to impact Southern California starting mid-to-late week. Weather models have shifted since yesterday, with forecasts now indicating strong winds are expected to begin on Thursday, Dec. 3. The National Weather Service (NWS) has issued a Fire Weather Watch for the San Diego region for Thursday at 12 a.m. (midnight) through Saturday at 10 p.m. due to critical fire weather conditions.

Based on adjusted timing for the event, SDG&E plans to provide advanced notification (approximately 48-hours prior) to customers beginning tomorrow, Tuesday, December 1. We will provide potential customer and community impacts based on updated forecasts tomorrow, December 1.

Notifications have been provided to public safety partners located in and/or serving the following communities:

- Barona Reservation
- Campo Reservation
- Carlsbad
- Chula Vista
- City of San Diego
- Coronado
- County of San Diego
- Cuyapaipe Reservation
- Dana Point
- Del Mar
- El Cajon
- Encinitas
- Escondido
- Imperial Beach
- Jamul Reservation
- La Jolla Reservation
- La Mesa
- La Posta Reservation
- Laguna Beach
- Laguna Niguel
- Lakeside
- Lemon Grove
- Los Coyotes Reservation
- Manzanita Reservation
- Mesa Grande Reservation
- National City
- Oceanside
- Orange County
- Pala Reservation
- Pauma Reservation
- Pechanga Reservation
- Poway
- Rincon Reservation
- San Clemente
- San Juan Capistrano
- San Marcos
- San Pasqual Reservation
- Santa Ysabel Reservation

- Santee
- Solana Beach
- Sycuan Reservation
- Viejas Reservation
- Vista

Thank you,

**Subject:** RE: SDG&E PSPS Notification: EOC Activated for Santa Ana Wind Event

Hello,

SDG&E's EOC remains activated to monitor and prepare for weather forecasts indicating a moderate-to-strong Santa Ana wind event next week. Advanced weather models show the event could start as early as the morning of Wednesday, Dec. 2 and possibly continuing through Sunday, Dec. 6.

There are no active de-energizations in SDG&E's service area at this time. Unless there are changes requiring immediate notification, we will provide another update tomorrow, Monday, Nov. 30. Tomorrow's update will include preliminary potential customer and community impacts.

Thank you,  
SDG&E Regulatory Affairs

Hello,

The Red Flag Warning issued by the NWS expired today, Saturday, November 28 at 9 a.m. SDG&E's EOC remains activated in a monitoring mode to track weather forecasts for a potential Santa Ana wind event next week. Advanced weather forecasts indicate a potentially strong wind event mid-to-late next week (December 2–5), with possible impacts throughout SDG&E's service area. At this time, the anticipated customer and community impacts are not confirmed. We will provide these details no later than Monday, November 30, once more there is greater confidence in weather forecasts.

Unless there are changes requiring immediate notification, we will provide another update tomorrow, Sunday, November 29. If you have any questions, please respond directly to this email; this inbox will be monitored throughout the duration of the event.

**Subject:** RE: SDG&E PSPS Protocols Initiated: Santa Ana Wind Event Expected for Thursday, November 26

Good afternoon,

Weather forecasts for Santa Ana winds and increased fire risk conditions remain in place for portions of SDG&E's service area. At this time, Santa Ana winds are expected to develop in the late evening on Thursday, November 26 and continue through the evening of Saturday, November 28.

The National Weather Service (NWS) has upgraded the Fire Weather Watch to a Red Flag Warning for Thursday, Nov. 26 at 9 p.m. through Saturday, Nov. 28 at 2 p.m. for San Diego County valleys and mountains.

SDG&E will activate its EOC at 9 p.m. on Thursday, November 26 and remain staffed through the conclusion of the event.

Yesterday, November 25, SDG&E provided advanced notifications to customers associated with 2,739 accounts, including 153 Medical Baseline (MBL) customers, that could potentially be impacted by this event. Notifications were made to customers in the following communities:

- Descanso
- Valley Center
- Julian
- Pala
- Santa Ysabel
- Alpine
- Crestwood
- Santa Ysabel Reservation
- Campo Reservation
- Viejas Reservation

There are no active de-energizations at this time. Additional information, including maps with PSPS boundaries, will be posted to [SDGE.com](http://SDGE.com).

Unless there are changes requiring immediate notification, we will provide another update when SDG&E's EOC is activated.

**Subject:** SDG&E PSPS Protocols Initiated: Santa Ana Wind Event Expected for Thursday, November 26

Hello,

SDG&E has initiated its Public Safety Power Shutoff (PSPS) protocols based on Santa Ana weather conditions forecast to impact the San Diego region in the late evening on Thursday, November 26 through Saturday, November 28. SDG&E's Emergency Operations Center (EOC) is not activated at this time. SDG&E's EOC staff will remain in a monitoring and planning mode until further notice.

At this time, SDG&E expects to provide advanced notification to potentially impacted customers starting tomorrow, Wednesday, November 25. Based on advanced weather forecasts, 40,240 customer accounts will potentially be impacted by this event, including 2,683 MBL customers. All of the potentially impacted areas are located within Tier 3 of the HFTD. Please note, customer impacts are preliminary at this time. The scope of this event will be revised tomorrow based on updated forecasts and weather models.

#### Weather event details

- Santa Ana weather conditions are expected to begin in SDG&E's service area late on Thursday, November 26. Winds are expected to peak in the mid-morning on Friday, November 27 and gradually decrease through Saturday, November 28.
- Additional information including estimated start/restoration times and potentially impacted areas/communities will be provided in our next notification.
- Fire Potential Index (FPI) on Friday expected to be elevated in portions of San Diego County.

Unless there are changes requiring immediate notification, we will provide another update tomorrow, Wednesday, November 25.

Thank you,  
SDG&E Regulatory Affairs

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

**The below table includes email notifications sent from SDG&E to the staff of the following representatives/officials by Mitch Mitchell—SDG&E Vice President, State Governmental Affairs & External Affairs and/or Kent Kauss—SDG&E Vice President, External Relations:**

Senators: Atkins, Hueso, Jones, the Senate Republican Caucus, Melendez, Bates, Min; the Legislative Analysts’ Office; Assemblymembers: Brough, Gloria, Gonzalez, Voepel, Waldron, Rendon, the Assembly Republican Caucus, Holden, Boerner Horvath, Maienschien, Weber; Office of the Governor; and the CPUC.

<b>Date/ Time</b>	<b>Message</b>
<p>11/30/2020 5:19 p.m.</p>	<p>This afternoon the National Weather Service issued a Fire Weather Watch for Inland Orange County and the San Diego County Valleys and Mountains <a href="#">from midnight Thursday until 10:00 p.m. Saturday</a>. The current <a href="#">weather forecast</a> indicates that the anticipated moderate to potentially strong Santa Ana Wind event, has shifted to later this week, and could begin early <a href="#">Thursday, December 3</a>. This event is still forecasted to last into the weekend.</p> <p>Given the changing nature of this weather pattern and the potential for multi-day, multi-Public Safety Power Shutoffs, SDG&amp;E's Emergency Operations Center remains in monitoring mode from the Red Flag Warning that expired on Saturday, November 28. Our meteorology team is developing and continuously updating circuit by circuit wind forecasts in order to determine the number of customers who could be impacted by a Public Safety Power Shutoff over the duration of this week's wind event.</p> <p>While the timing of peak winds is still uncertain, the potential exists that the entire <a href="#">High Fire-Threat District</a> along with some coastal communities could experience unusually high winds.</p> <p>We will keep you informed as the weather system approaches and we have greater clarity in what it looks like. We do not plan to text the members directly just yet on this event but may if conditions warrant.</p> <p>We recognize some of the members on this list are moving on to other places but during this gap we wanted to keep you informed.</p>

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

<p>12/01/2020 5:46 p.m.</p>	<p>Updated info:</p> <p>The National Weather Service has issued a Red Flag Warning in effect for San Diego County Valleys and Mountains and Inland Orange County, <a href="#">from Wednesday, December 2, at 6:00 p.m. through Saturday, December 5, at 10:00 p.m.</a> The National Weather Service also issued a High Wind Watch for these same areas, for potentially damaging winds. Winds may start to pick up as early as Wednesday, or they may hold off <a href="#">until Thursday</a>, these <a href="#">high fire weather risk conditions</a> could affect the power lines serving local communities.</p> <p>SDG&amp;E plans to activate its Emergency Operations Center to monitor high fire risk weather conditions which may force SDG&amp;E to shut off power to reduce the risk of wildfire. The following communities may be impacted:</p> <ul style="list-style-type: none"><li>• Aguanga</li><li>• Alpine</li><li>• Boulevard</li><li>• Barona Reservation</li><li>• Campo</li><li>• Campo Reservation</li><li>• Chula Vista</li><li>• Descanso</li><li>• Encinitas (Olivenhain)</li><li>• El Cajon</li><li>• Escondido</li><li>• Ewiiapaayp Reservation</li><li>• Fallbrook</li><li>• Jacumba</li><li>• Jamul</li><li>• Jamul Reservation</li><li>• Julian</li><li>• La Jolla Reservation</li><li>• Lakeside</li><li>• La Posta Reservation</li><li>• Mount Laguna</li><li>• Nestor</li><li>• Oceanside</li><li>• Pala</li><li>• Pala Reservation</li><li>• Palomar Mountain</li><li>• Pauma Reservation</li><li>• Pauma Valley</li><li>• Penasquitos</li><li>• Pine Valley</li><li>• Potrero</li><li>• Poway</li><li>• Ramona</li></ul>

<b>Date/ Time</b>	<b>Message</b>
	<p>Santa Ysabel Santa Ysabel Reservation Valley Center Viejas Reservation Warner Springs</p> <p>Details on current Santa Ana event:</p> <ul style="list-style-type: none"> <li>• <b>Timing:</b> Winds picked up overnight and will remain strong through this morning. Winds will become isolated to the more typical wind-prone locations by late afternoon / early evening. Moderate winds will remain localized to the typically windy backcountry areas through Friday morning / afternoon before weakening.</li> <li>• <b>Winds:</b> Widespread backcountry gusts of 50-60 mph through the morning, isolated higher gusts in wind-prone locations. Coastal areas (particularly in North Coast district) will continue to see gusts of 25-35 mph through mid-morning. Tonight through tomorrow morning, winds will be considerably weaker with 35-45 mph gusts, isolated higher.</li> <li>• <b>Temperatures:</b> Highs west of the mountains will be in the low to mid-70s through the duration of the event, with 40s and 50s across the high terrain. Overnight lows in mountain areas are expected to be in the 20s and 30s.</li> <li>• <b>Humidity:</b> Humidity will drop into the teens to single digits for most areas through the duration of the event.</li> <li>• <b>FPI:</b> The FPI will be Extreme for all inland districts today, and for ME and RA on Friday. An Elevated rating will continue for all coastal districts, with 14s in Orange County and North Coast.</li> <li>• <b>NWS Products:</b> Red Flag Warning for Inland Orange County (Zone 554) and the San Diego County Valleys and Mountains (Zones 250 &amp; 258), until 2200 Saturday; High Wind Warning through 1800 today for Inland Orange County (Zone 554) and the San Diego County Valleys and Mountains (Zones 250 &amp; 258); Wind Advisory for the San Diego Coast through 1600 (Zone 243).</li> </ul>
<p>12/03/2020 7:26 p.m.</p>	<p>We have started restoring power to those impacted and have restored about 25,000 before darkness. We will resume inspection work with daylight tomorrow. We inspect during daylight hours to ensure we can complete inspect for any damage that may have occurred. About 45,000 customers remain without service.</p>

**SDG&E Post-Event Report on Public Safety Power Shutoff Event:  
November 26–December 9, 2020**

<b>Date/ Time</b>	<b>Message</b>
<p>12/04/2020 6:25 a.m.</p>	<p>Morning update:</p> <ul style="list-style-type: none"> <li>• Weather conditions are improving but isolated Santa Ana winds will continue this morning and decrease through the afternoon. The Red Flag warning is still thru 2200 Saturday for inland OC and SD valleys and mountains</li> <li>• Another round of at least moderate strength Santa Anas expected Monday night and into Tuesday</li> <li>• Our FPI is currently looking to be Extreme in inland districts on Tuesday and Elevated elsewhere</li> <li>• Peak gust currently are in the 32-40 mph range in various inland areas</li> <li>• Crews will start patrolling shortly as sunrise is 6:35am in the region (Sacto is at 7:08am)</li> <li>• Roughly half of the circuits are expected to be restored by 5pm today with a handful of others by 9 and 10:30 this morning with the roughly half remaining slated for tomorrow at 5pm. This times are estimates and depend on what we find during our inspections and improving weather conditions – good news is earlier estimates of Sunday have been pushed up to tomorrow – but again restoration depends on what our crews find in the field</li> </ul> <p>If you want more details, let us know.</p>
<p>12/04/2020 4:25 p.m.</p>	<p>We are down to 9,334 customers still out. Inspection work continues and we expect to bring all but about 1,200 back on today - that could change but that Is current estimate. There are some repairs being done as a result of the weather event. Current wind gusts down to 16-20 mph in various areas.</p>

<b>Date/ Time</b>	<b>Message</b>
12/01/2020 6:00 p.m.	<p>As you probably are aware we have a weather system approaching the region that includes red flag and high wind alerts from the National Weather Service. This event could trigger PSPS events as early as tomorrow evening and into Saturday. Our meteorology team is tracking the system as well and we are preparing to activate our Emergency Operations Center and communicating with customers about the potential need to de-energize certain circuits. We have sent your staff additional levels of detail except in the case of new members where we don't have staff contact information yet. This is a significant event that is wide spread throughout our service territory. If we do de-energize we will open our Community Resource Centers but are also monitoring Governor orders relative to COVID and sheltering in place.</p> <p>We will keep you posted as the situation develops.</p>
12/02/2020 6:20 p.m.	<p>We have de-energized 76 customers including 2 medical baseline customer in Descanso and Ramona area. We continue to monitor the weather situation and will restore service as soon as feasible and following inspections of our facilities.</p>
12/02/2020 7:15 p.m.	<p>We have now de-energized 457 customers in the following communities including 21 medical baseline customers. Power may be out until Sunday in the inland areas but we will continue to evaluate the situation.</p> <p>Alpine Campo Campo Reservation Descanso (Sill Hill) La Posta Reservation Valley Center Viejas Reservation</p>
12/02/2020 9:19 p.m.	<p>The event continue to grow. We are now up to 10,637 including 280 medical baseline customers in the following communities</p> <p>Alpine Boulevard Campo Campo Reservation Descanso</p>

<p>12/03/2020 10:36 a.m.</p>	<p>Update:            Wind conditions and available daylight will dictate our efforts to safely patrol and restore service. SDG&amp;E crews and contractors stand ready to restore power as quickly as possible when it is safe to do so.</p> <p>Our focus is on employee and public safety and we are truly committed to effective and impactful customer communications.</p> <p>We have opened 10 drive-thru Community Resource Centers in impacted areas to support affected customers with ice, water, snacks, charging for small electronics, information and cold weather items. Our customer messaging will be through multi-channels and updated often.</p>
<p>12/03/2020 7:24 p.m.</p>	<p>We have started restoring power to those impacted and have restored about 25,000 before darkness. We will resume inspection work with daylight tomorrow.
