

Rulemaking (R.) 20-07-013 Phase II

Technical Working Group #1

APRIL 20, 2022

10:00 AM- 3:30 PM

Purpose:	Safety Policy Division (SPD) staff (Staff) has contracted with a consulting group called Level 4 Ventures Inc. (Level 4) to provide guidance on the Phase II subset of issues in the Order Instituting Rulemaking to Further Develop a Risk-Based Decision-Making Framework for Electric and Gas Utilities (R.20-07-013). The purpose of this Technical Working Group (TWG) session is to provide a forum for all parties discuss the pros and cons of Level 4's recommendations.
Expected Outcome:	TWG attendees will have a better understanding of the refined recommendations found in the Level 4 Recommendations Report. Attendees will also have an opportunity to discuss the advantages and disadvantages of each recommendation and will eventually help determine what elements of the risk-based decision-making framework should be standardized and in what order of priority. Future TWG sessions will be used to develop the details of implementation.

AGENDA ITEM

TIME
