

Rulemaking (R.) 20-07-013 Phase I Track 1

Public Safety Power Shutoff (PSPS)
Technical Working Group (TWG) meeting
July 16, 2021

9:30 AM – 12:00 Noon

California Public
Utilities Commission

INTRODUCTIONS, SCHEDULE & PURPOSE OF THE MEETING

Background

During the May 6 Phase I Track 1 TWG, participants raised concerns that not enough is known or widely understood about risks associated with PSPS events in order to adequately assess them in a Risk-Based Decision Making Framework (RDF). All participants agreed to the need for one or more PSPS focused TWGs starting in July 2021.

This TWG meeting is a result of that request.

Purpose of Today's Meeting

This meeting IS intended to:

- Share information from IOUs about PSPS risks as relevant to RDF.
- Promote free dialogue of practices, ideas, concerns, and knowledge.
- Freely share differing ideas and points of view about PSPS risks as relevant to RDF.

This meeting is NOT to:

- Debate practices, ideas, concerns, or knowledge.
- Criticize or squash differing ideas or points of view.
- Discuss topics not relevant to PSPS risks.
