

Submitting Applications as Large Document Files

- a. My SB 1383 Pilot Project Application is a very large file, how can I be sure that it will be received by the Selection Committee?

The California Public Utilities Commission has a confidential submission portal located at the following web address: <https://cpucftp.cpuc.ca.gov/> This portal can accept large files.

Applicants will have to create an account.

Once inside the portal, applicants will have to email the uploaded file to Jamie.Ormond@cpuc.ca.gov.

Additionally, it would be a good idea to submit a note to the renewablegas@cpuc.ca.gov email address indicating that the application has been submitted to the CPUC FTP portal.
