Executive Summary

Trans Bay Cable LLC ("TBC") respectfully submits its 2018 Annual Report and 2019 Annual Plan for the Utility Supplier Diversity Program, in compliance with the requirements of California Public Utilities Commission ("CPUC" or "Commission") General Order No. 156 ("GO 156"). This Annual Report describes the program activities and results TBC achieved for the period of January 1, 2018, through December 31, 2018. The Annual Plan describes TBC's anticipated and planned activities for the period of January 1, 2019, through December 31, 2019.

Key spending and accomplishment areas in 2018:

- Total Spend The total for WMDVLGBTBE (as later defined) spend was \$683,063 in 2018. TBC exceeded its total 2018 goal for WMDVLGBTBE spend by 0.9%.
- Legal, Financial and Business Consulting Services A total of \$336,412 was spent on traditionally underrepresented employees at majority-owned law firms, financial firms and business consulting firms which continues TBC's strong trend of utilizing traditionally underrepresented employees in these services areas. TBC notes that actual spend is potentially higher but employee rates at some vendors are not available.

Introduction

TBC is а small energy transmission company. TBC's facilities consist of a 53-mile, approximately 400 megawatt high-voltage direct-current ("HVDC") submarine electrical transmission line and two converter stations (the "Project"). The transmission line is located beneath the adjoining bays of San Francisco, San Pablo, and

Suisun and runs between TBC's two converter stations: located in Pittsburg, California, and San Francisco, California.

The Project began commercial operation on November 23, 2010. It delivers power for approximately 40% to 60% of San Francisco's peak electrical load. The Project is an important and high-profile component of the San Francisco area's electricity infrastructure.

TBC utilizes unique HVDC PLUS technology developed, serviced and warrantied by Siemens Energy and Prysmian Cable and Systems. Siemens is responsible for procuring many of the vendors needed for the Project's operation and maintenance, in addition to providing equipment warranty servicing. A majority of the vendors

procured have been involved with the Project prior to its commissioning and are on longterm contracts or are highly-specialized vendors particularly suited to meet the Project's needs. As a result, TBC has few new procurement opportunities, but strives to make these opportunities available to woman, minority, disabled-veteran, lesbian, gay, bisexual and transgender owned business enterprises ("WMDVLGBTBE") when feasible.

2018 Annual Report

9.1.1 Internal & External Activities

Trans Bay Cable LLC	2018 Report	G.O. #156 Sec. 9.1.1						
Description of WMDVLGBTBE Program Activities During the Previous Calendar Year								

Internal Activities

TBC's Supplier Diversity Program ("SDP" or the "Program") for WMDVLGBTBEs is overseen by TBC's Legal Department. The Legal Department's efforts are supplemented by TBC's Finance Department, IT Department, Operations Department, and Human Resource Department. Together, TBC personnel have developed, implemented, and continue to expand TBC's Program.

In accordance with Section 6.1.1 of GO 156, in 2018, all employees with procurement responsibilities, including at least one employee from each department, received training on the implementation of TBC's Program.

As stated in the summary, as a result of the unique technology utilized in TBC's Project Facility, the resultant need for specialized vendors and the existence of long-term contracts, there are few opportunities for new procurement. However, in 2018, as in previous years, where there are new service opportunities TBC sends out requests for proposals to solicit responses from diverse vendors.

TBC contracts with vendors inform them about the CPUC's GO 156 program. TBC encouraged its vendors to visit The Supplier Clearinghouse website to determine their eligibility and complete the verification process. Additionally, TBC encouraged its vendors to use WMDVLGTBE subcontractors when feasible and includes such language in its vendor contracts and purchase orders. TBC also encourages and provides assistance to vendors, who are not participants in the Supplier Clearinghouse but would be qualifying diverse businesses, to apply for Supplier Clearinghouse certification.

This past year, TBC continued to use its website as a resource for potential WMDVLGBTBEs. WMDVLGBTBEs can contact TBC about supplier diversity through TBC's website at <u>www.transbaycable.com/contact-us/</u> (a link to this site is also provided on The Supplier Clearinghouse website). A TBC employee responds to all website inquiries and forwards the WMDVLGBTBE's contact information to the

appropriate TBC department. WMDVLGBTBEs can also submit questions about TBC's Program via this online form.

External Activities

In 2018, TBC participated in conference calls held by the California Joint Utilities Committee in an effort to (i) further develop its Program, (ii) better refine its understanding G.O. 156 requirements and best practices, and (iii) increase vendor opportunities.

WMDVLGBTBE		

TBC does not have sufficient information to report on whether the majority of the workforce of its WMDVLGBTBEs are working in California. However, TBC does note that the overwhelming majority of its WMDVLGBTBE vendors are based in California.

9.1.3 Itemization of WMDVLGBTBE Program Expenses

Trans Bay Cable LLC	2018 Report	G.O. #156 Sec. 9.1.3				
WMDVLGBTBE Program Expenses						

While expenses were incurred for activities in support of GO 156, none of the expenses were solely attributable to those activities. A variety of TBC employees contribute to TBC's Program, in particular the members of the Legal Department and Operations Department.

9.1.4 Progress in Meeting or Exceeding Set Goals

Trans Bay Cable LLC	2018 Report	G.O. #156 Sec. 9.1.4
Progress in Me		

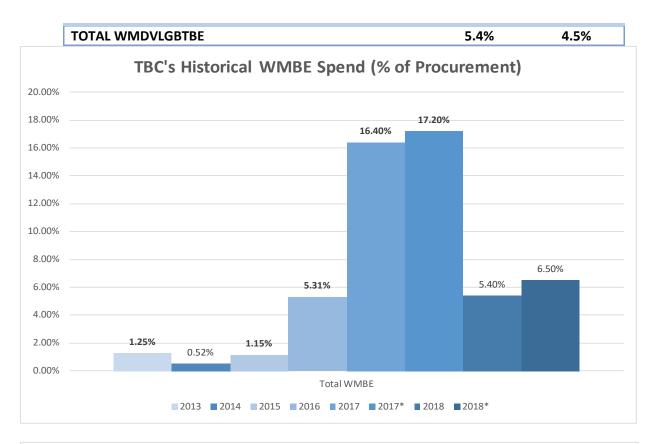

TBC met its 2017 WMDVLGBTBE Procurement Goals, coming in at 0.9% above its overall goal target of 4.5%. Although TBC did not reach its MBE goal, TBC exceeded its target WBE goal by 170% from a target of 2% to an actual of 5.4%. 2018 performance marks the third consecutive year that TBC's overall diversity procurement percentage has meet or exceeded its annual goal. TBC notes that while its total diversity spend increased in the prior two years (2016 and 2017), the overwhelming majority of that spend was driven by atypical non-recurring projects. As such diversity procurement, as well as net procurement, were down in 2018. As stated earlier, many of the Project's vendors are on long term contracts existing since development of the Project. Additionally, the Project remains under warranty with Siemens and Prysmian whose proprietary technology was utilized to design the Project HVDC system and submarine cabling. As a result, procurement with both vendors and long-term existing contracts generally take up a significant portion of TBC's procurement budget.

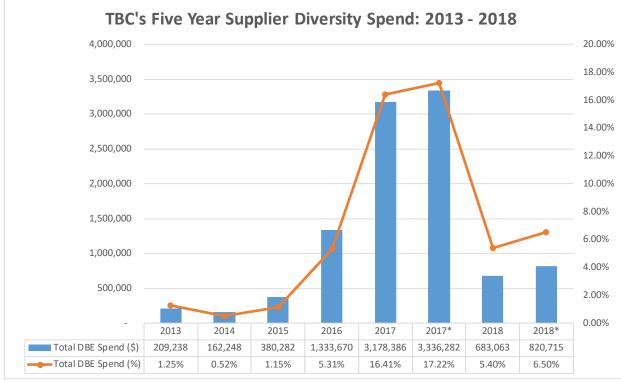

It should be noted that TBC's cumulative WMDVLGBTBE spend is higher than reported, as some vendors were not certified by the Supplier Clearinghouse; and therefore, those amounts could not be included in TBC's 2018 totals. Nevertheless, TBC continues to encourage and offer assistance to all vendors who meet the qualifications of the Supplier Clearinghouse to apply for certification. The Company was successful in having one vendor become Supplier Clearinghouse certified in 2018.

If all WMDVLGBTBEs used by TBC were certified, TBC would have increased its 2017 WMDVLGBTBE Procurement Results from \$683,063 to \$820,715, thereby increasing the overall percentage from 5.4% to 6.5%.

9.1.5 Summary of Prime Contractor Utilization of WMDVLGBTBE Subcontractors

Trans Bay Cable LLC	2018 Report	G.O. #156 Sec. 9.1.5				
Prime Contractor Utilization of WMDVLGBTBE Subcontractors						

In 2017, TBC continued to encourage all of its Prime Contractors to utilize WMDVLGBTBE subcontractors. TBC's Responsible Vendor section of its Purchase Order Terms and Conditions states:

"In connection with the performance of work under this Agreement, Seller [or Contractor or Vendor] agrees to operate in an ethical and socially responsible manner which means that Seller [or Contractor or Vendor]... engages and includes Female, minority, disabled veterans, lesbian, gay, bisexual and transgender business enterprises for subcontracting opportunities when feasible."

Additionally, agreements for services contain the following language:

"Contractor recognizes that TBC is a California public utility that participates in the California Public Utilities Commission ("CPUC")'s initiative to increase the utilization of woman, minority, service-disabled veterans, lesbian, gay, bisexual and transgendered owned businesses in accordance with the CPUC's General Order No. 156. As such, when seeking bids for subcontracts, TBC strongly encourages Contractor to recruit and utilize businesses that are **registered** with the CPUC-supervised Supplier Clearinghouse. TBC directs Contractor to the Supplier Clearinghouse (*www.thesupplierclearinghouse.com*) for a database of potential subcontractors and further information. Contractor may seek assistance from TBC in connection with accessing the Supplier Clearinghouse and recruitment of the businesses referenced above. Contractor is also strongly encouraged to set a goal for the percentage of subcontracting opportunities awarded to businesses owned by women, minorities, service-disabled veterans, lesbian, gay, bisexual and transgendered persons."

As stated earlier, in the prior two years, atypical project spend drove higher procurement. Nevertheless, TBC spent \$57,330 with CPUC-registered subcontractors.

TBC did not receive any WMDVLGBTBE complaints in 2018.

9.1.7 Recruitment Efforts in Underutilized Areas

Trans Bay Cable LLC	2018 Report	G.O. #156 Sec. 9.1.7					
Efforts to Recruit WMDVLGBTBE Suppliers in Low Utilization Categories							

TBC recognizes the importance of increasing WMDVLGBTBE utilization in areas with traditionally low representation in the utility industry, such as legal, financial and compliance services. For 2018, TBC has identified a total of \$336,412 on services by traditionally underrepresented groups in the areas of legal, financial and compliance services. TBC notes that actual spend is higher than \$336,412 but in some cases either specific rates for diverse persons were not available or work performed was not on a time and materials basis.

TBC strives to develop and maintain relationships with diverse attorneys at majority-owned law firms. In 2018, TBC spent \$37,737 with diverse attorneys at majority-owned law firms.

9.1.11 WMDVLGBTBE Fuel Procurement

Trans Bay Cable LLC	2018 Report	G.O. #156 Sec. 9.1.11		
WMDVLGBTBE Fuel Procurement				

TBC only engages in electric transmission and thus fuel or energy procurement is not a part of TBC's normal core business. TBC does however maintain emergency generators on site which are designated for use in emergency situations and therefore are not operated during the normal course of business. TBC also maintains some other standby equipment for use with cable maintenance which utilizes fuel. TBC purchases the limited quantities of fuel needed to maintain its emergency generators and other standby equipment from a woman-owned business enterprise (WBE). In 2018, TBC spent \$10,220 in fuel procurement, the entire sum of which was spent with this WBE.

2019 Annual Plan

10.1.1 WMDVLGBTBE Short-, Mid-, and Long-Term Goals

Trans Bay Cable LLC	2018 Report	G.O. #156 Sec. 10.1.1
WMDVLGBTBE Annual SHORT, MID, AND LONG-TERM Goals		

As a small, single asset utility with a unique facility that operates with proprietary technology, TBC is unable to provide specific procurement goals. Additionally, TBC notes that while its diversity spend has increased in 2016 and 2017, the overwhelming majority of that spend was driven by atypical non-recurring projects. As a result, overall diverse procurement, and net procurement, was down in 2018. However, TBC still exceeded its WMDVLGBTBE 2018 goal by 20%. As stated throughout the report, the developers of the Project's technology and associated long term contracts take up a significant portion of TBC's procurement budget. However, as shown in this report, TBC is committed to continuing efforts to employ the services of diverse and traditionally underrepresented groups and increasing competitiveness in sourcing products and opportunities when they arise. Based on the foregoing, TBC's 2019 WMDVLGBTBE program goals are stated below:

2018 Strategic Program Goals

Short-, Mid-, and Long-Term Goals	Short Term (2019)	Mid Term (2021)	Long Term (2023)
Minority Business Enterprise (MBE)	2%	3%	4%
Female Business Enterprise (WBE)	3%	3%	4%
Disabled Veteran Business Enterprise (DVBE)	0.5	0.5%	.05%
LGBT Business Enterprise (LBE)	0.5	0.5%	1.0%
TOTAL WMDVLGBTBE GOAL	5.5 %	7.0%	9.5%

10.1.2 Planned Program Activities

TBC is committed to continue its participation in supplier diversity outreach events in the San Francisco Bay Area. For 2019, TBC's supplier diversity plans include the following strategies to strengthen the Program's results:

Planned External Activities

- Participate in local diversity expos, trade-fairs, and conferences
- Attend various CPUC and utility events, workshops, meetings, forums, webinars, conference calls, etc.
- Encourage existing suppliers to participate in the CPUC's supplier diversity program and register with the CPUC.

Planned Internal Activities

- Finance Department will continue to be responsible for identifying which active and current suppliers fall within TBC's Supplier Diversity Policy
- Utilize tools, such as the Supplier Diversity Clearinghouse, to receive bids from a more diverse group of suppliers
- Further educate employees, management, and prime contractors on implemented policies and processes to strengthen the alignment of strategic sourcing and Supplier Diversity
- Clearly communicate TBC's Supplier Diversity Program to its prime contractors
- Assist prime contractors in developing their supplier diversity plans and goals
- Develop processes to maximize participation of diverse suppliers for products and services identified to be competitively bid
- Continue to adopt and follow industry best practices

TBC's WMDVLGBTBE recruitment efforts remain on-going, and TBC will continue its efforts to identify and utilize WMDVLGBTBE suppliers. Recruitment efforts will

continue through participation at events such as the CPUC's Small Business Expo and other industry events.

10.1.3 Recruitment Plans

Trans Bay Cable LLC	2018 Report	G.O. #156 Sec. 10.1.3	
Plans for Recruiting WMDVLGBTBE Suppliers in Low Utilization Areas			

TBC is committed to seeking and recruiting WMDVLGBTBE suppliers in underutilized areas. In 2019, TBC will continue to:

- Route potential suppliers to TBC's internet site at http://www.transbaycable.com/contact-us/, where suppliers can select "supplier diversity" from the drop down menu and enter their information to register to become a qualified supplier in our database;
- Partner with leadership in the non-traditional areas to plan and develop strategies for increasing the utilization of diverse suppliers; and
- Execute best practices within our sourcing strategies to identify products and services where diverse suppliers exist, but the company is underutilizing them.

10.1.4 Plans Recruiting WMDVLGBTBE Suppliers

Trans Bay Cable LLC	2018 Report	G.O. #156 Sec. 10.1.4
Plans for Recruiting WMDVLGBTBE Suppliers Where Unavailable		

TBC is committed to providing encouragement and assistance to vendors that it utilizes that may meet the criteria for Supplier Clearinghouse certification but are not registered. As TBC identifies those vendors, it will provide information on and assistance with the Supplier Clearinghouse enrollment and registration process.

10.1.5 Planned Subcontracting Opportunities

Trans Bay Cable LLC	2018 Report	G.O. #156 Sec. 10.1.5
Plans for Encouraging Prime Contractors to Subcontract WMDVLGBTBE Suppliers		

TBC will continue to encourage prime contractors to engage and include WMDVLGBTBEs in subcontracting opportunities. Although the award of any subcontracting activity is at the prime contractor's final discretion, TBC will work closely with its prime contractors to: 1) help identify specific products and services within TBC's projects where there are known diverse suppliers for inclusion, 2) make our listing of approved diverse contractors accessible, and 3) advocate for diverse supplier inclusion to the maximum extent possible, including adding specific WMDVLGBTBE requirements to contracts.

TBC will also continue to provide additional guidance to its prime contractors in the Responsible Vendor section of TBC's Purchase Order Terms and Conditions. This section communicates the company's commitment to supplier diversity and reaffirms the company's expectations of opportunity and inclusion early in the sourcing process.

10.1.6 Program Compliance

Trans Bay Cable LLC	2018 Report	G.O. #156 Sec. 10.1.6
Plans for Complying with WMDVLGBTBE Program Guidelines		

TBC recognizes the social and economic benefits of a successful supplier diversity program. TBC will continue to comply with GO 156 and its guidelines and requirements and will continue to work with the CPUC, its staff, and the California Joint Utilities Group in pursuing new strategies to continually advance the Utility Supplier Diversity Program objectives. TBC will comply with all revisions of GO 156 and all other requirements of the CPUC.
