Description of WMDVLGBTBE Prog	Description of WMDVLGBTBE Program Activities During the Previous Calendar Year							

Internal Program Activities

Wild Goose Storage LLC's (WGS) Supplier Diversity program is administered jointly by the Manager of Engineering and Operations (Eng/Ops), and U.S. Operations personnel. The parent company for WGS continues to be Rockpoint Gas Storage, who in turn is owned by Brookfield Infrastructure. The WGS Eng/Ops group reports directly to the Vice President (VP) of Eng/Ops for Rockpoint. During CY2019, WGS continued to apply a disciplined approach to spending, with management and senior members making key purchasing decisions as they had in the past. The Eng/Ops group was made aware of the importance of G.O. #156 program and utilization of diverse suppliers/contractors. Both WGS and Lodi Gas Storage (LGS) are under the same Brookfield ownership umbrella. Despite LGS not needing to submit a G.O. #156 report for CY2019 (due to being below \$25MM threshold) a concentrated effort was made on both WGS/LGS' behalf to communicate and incorporate diverse suppliers/contractors within their spend requirements. The facility continues to be fully committed to the development and adherence of G.O. #156 Supplier Diversity Program goals. The Manager of Eng/Ops has reviewed the Clearinghouse information in regards to WMDVLGBTBE spend.

Wild Goose Storage, LLC	Calendar Year 2019	G.O. #156 Sec. 9.1.2
Description of WMDVL	GBTBEs with CA Majority Wo	rkforce

Five WMDVLGBTBE's were utilized by Wild Goose during the 2019 calendar year. Two of the companies are new additions in comparison to Calendar Year 2018, and represented 21% of the G.O. #156 spend. One is owned by an Asian Pacific Male Minority, while the other is a Woman Business Enterprise. Both of the two new companies were contractors, with one providing labor/tools for pipe fitting, and the other environmental testing/engineering services. Both of these companies are stationed in California.

Wild Goose also continued utilization of three companies that have been used in the past. One supplied a specific product for the WGS process, and they have a single sales office in California. While the other two companies provided rental equipment for well servicing, and instrumentation equipment.

The majority of the workforce and product distribution for these five WMDVLGBTBE companies resides in California.

Description of Progres	ss in Meeting or Exceeding Set	Goals

Despite having a lower percent spend for WMDVLGBTBE in comparison to last year (8.05% in CY2019 versus 11.50% in CY2018), Wild Goose is pleased with the results. For, the overall dollar amount spent on WMDVLGBTBE was higher (\$299.4K in CY2019 versus \$264.9K in CY2018). The reason for the drop in percent spend, while dollar spent increased, is that the net procurement value increased by 61% (\$3,718K in CY2019 versus \$2,307K in CY2018). The cause for the increase in net procurement is due to a greater number of capital projects (\$1,024K). Gas Storage project work tends to be very specialized with less WMDVLGBTBE companies available that provide desired product/service. The higher capital spend is expected until the end of calendar year 2025, due to well work program that's required to be completed to meet State regulatory requirements. Efforts continued in utilizing WMDVLGBTBE companies with day to day operations, and we believe this initiative was successful. For, even though operating costs (opex) remained relatively consistent the amount spent on WMDVLGBTBE companies was higher (\$234.6K in CY2019 versus \$216.5K in CY2018 for operating related costs).

Wild Goose is expecting equivalent WMDVLGBTBE spend in CY2020, in comparison to the CY2019 actual spend values. Overall we're anticipating to achieve an 8.50% target. WMDVLGBTBE spend % is not expected to increase above 10% until the well work program is completed at the end of CY2025.

Description of Efforts to Recruit WM	Description of Efforts to Recruit WMDVLGBTBE Suppliers in Low Utilization Categories										

Wild Goose has been working closely with sister company, Lodi Gas Storage, on the GO #156 initiative over the past few years. The San Ramon Business Expo was attended by 2 representatives from Lodi on November 1, 2018, who setup a booth to display and promote both Lodi and Wild Goose. One of the new WMDVLGBTBE contractors that both Lodi and Wild Goose utilized in CY2019 was identified during the Business Expo. The company is within a category that previously was low for Wild Goose (MBE – Asian Pacific). A G.O. #156 event was not attended in 2019 for the following reason. During last year's review meeting the CPUC G.O. #156 group in April, 2019, it was brought to Wild Goose's and Lodi's attention that the G.O. #156 report is required for utility companies that have revenue in excess of \$25MM per year. Based on CY2018 revenue numbers, both Wild Goose and Lodi were not anticipating to exceed this threshold in CY2019. It wasn't until January, 2020 that Wild Goose was made aware of the CY2019 revenue results which showed that they had exceeded \$25MM. As a result, Wild Goose is encouraged to take a more pro-active approach with outreach programs, such as Business Expo's, in an effort to identify additional prospective WMDVLGBTBE companies, and improve Supplier Diversity awareness/spend.

As Wild Goose's program implementation progresses, we will continue to use best efforts to identify vendors in these low-use areas and include them in our procurement plan.

WMDVLG	WMDVLGBTBE Fuel Procurement										

Wild Goose utilizes natural gas as their fuel to run various pieces of equipment. This natural gas is removed / metered from the main sales stream that either comes from or goes onto PG&E's transmission system. This fuel usage is charged back to customers who utilize Wild Goose for gas storage. Thus, fuel procurement is not applicable to the Supplier Diversity Program.

Wild Goose Storage, LLC	Calendar Year 2019	G.O. #156 Sec. 10.1.2
Description of WMDVLGBTBE Plan	nned Program Activities for the	Next Calendar Year

Internal program activities

Wild Goose operates one gas storage facility in Northern California; with the main part of the process located in Butte County. The total amount that's spent on products/services (\$3.719 MM net procurement) rose over the past year due to increased capital well work program that was performed. Continued efforts were made to reduce operating costs as a way to offset low commodity pricing, and resulting revenue. The downturn in the petroleum industry, as a result of lower commodity pricing, has caused businesses in the area to close shop and move elsewhere. Purchasing options have become even more limited than in the past. Wild Goose is fortunate that one of the WMDVLGBTBE companies utilized consistently over the past few years has remained in tact and continues to provide the supplies that are required. As mentioned earlier, overall G.O. #156 spend in dollars was higher when comparing with Calendar Year 2018 (\$299.4K in CY2019 versus \$264.9K in CY2018), however the overall per-cent spent was lower on WMDVLGBTBE's (8.1% versus 11.5%) due to increased capital spending, and few Supplier Diverse companies that provide products/services for these specific capital projects. Wild Goose anticipates spend percent to remain between 8 – 10% until year 2026, when the well work capital program has been completed.

Due to the limited number of purchases that are made by Wild Goose, the employment of a full time procurement specialist is not justified. The Manager, U.S. Engineering and Operations, and the Plant Production Coordinator, will continue to work diligently in seeking new Supplier Diverse companies that can support Wild Goose's needs. Wild Goose will continue to network with the Lodi Gas Storage operation on new/potential WMDVLGBTBE's, despite Lodi not being required to submit an annual report (due to revenue being below \$25MM threshold).

In the area of Capacity Building, Wild Goose, as a small utility has only so much leverage to be able to affect change in this area. The specialized nature of some of the equipment as well as the processes unique to gas storage make it difficult in some instances to be able to spread out the supplier base. When undertaking large development/capital projects at Wild Goose, it typically necessitates the use of high capacity equipment, and unique technical skills/contractor labor. Goods and services that aren't readily available from WMDVLGBTBE companies. The proprietary nature of our business definitely limits our ability to be more aggressive in this area. That being said, Wild Goose continues to investigate WMDVLGBTBE companies in the area to see if they'd be a possible fit for future use.

Wild Goose runs the Supplier Diversity Program jointly between the Calgary Head Office and the facility, which is located just West of Gridley California. The ability for Wild Goose to expand its mandate in this area requires both local and Head Office support. As discussed earlier, Rockpoint Gas Storage management have been given an overview of the G.O. #156 program, and the associated importance. We continue to focus our efforts upon doing what we can to expand the supplier base in the Wild Goose area as well as increasing business ties with the small and relatively non-diverse business community. We are aware that this is a worthy goal and will continue to strive in making progress in this area with the resources that we have at our disposal.

External program activities

Wild Goose has acquired and will continue its membership in Supplier Diversity trade associations in the Sacramento Valley area, such as the Sacramento Regional Business Partnership and the Sacramento Hispanic, Asian and Black Chambers of Commerce. Wild Goose was represented at the CPUC/Joint Utilities San Ramon Business Expo on November 1, 2018, and despite not attending an event in 2019, will make an effort to do so in 2020, as well as supporting other programs related to Supplier Diversity.

Plans for Recruiting WMDVL	GBTBE Suppliers in Low Util	ization Areas

Wild Goose will continue to monitor expenditures in the categories where utilization of diverse suppliers' has been historically low. We will continue to assess accounting reports in order to identify the magnitude of expenditures in these areas and determine if our efforts may have a tangible impact. As well, periodic review of the Clearinghouse website, and possibly attendance at future outreach events, will be done in an effort to identify WMDVLGBTBE's that could potentially provide a product/service at Wild Goose. Although we hope to take advantage of opportunities in low utilization areas, it is our intent to focus our supplier diversity efforts where we can maximize our expenditures with verified suppliers regardless of category to help increase overall spend percent.

Plans for Recruiting WMD	Plans for Recruiting WMDVLGBTBE Suppliers Where Unavailable									

This continues to be a challenge for Wild Goose due to proximity of their operation in Northern California, combined with the nature of their business, and limited number of supplier diverse products/services that can support their needs. However, Wild Goose will keep this initiative in mind when seeking suppliers/contractors, and make efforts to recruit WMDVLGBTBE's from areas that previously have not been available. Wild Goose will take the opportunity, when available, to express their desire to the supplier/contractor community in utilizing WMDVLGBTBE companies for their needs.

Plans for Encouraging Prime Cont	ractors to Subcontract WMD\	/LGBTBE Suppliers

Wild Goose has supplied prime contractors with pamphlets provided by Supplier Clearinghouse and with a copy of G.O. #156. Wild Goose continues to encourage its prime suppliers and contractors to contact the Office of Small and Minority Business for a list of certified WMDVLGBTBE's. Ultimately, it's the contractor's decision as to what subcontractors they select that best fulfill their company's needs. But, at a minimum, they are aware of the G.O. #156 initiative to utilize diverse products/services. The Wild Goose program administrator will continue to assist plant personnel that have procurement authority to encourage prime contractors to include verified minority suppliers.

Wild Goose's senior management have been introduced to the G.O.#156 initiative, and are fully committed to supporting the company's Supplier Diversity Program. The company will strive to comply with the provisions and requirements of G.O.#156 and will work with the CPUC in the ongoing implementation of program goals and objectives.
