**Privacy Notice:** All information provided on this form will become part of the public record. Unless indicated by you otherwise, you will automatically be added to the CEQA mailing list.

Your input on the proposed project is greatly appreciated. If you have comments on the accuracy and adequacy of the Draft Environmental Impact Report (EIR) for the Monterey Peninsula Water Supply Project (MPWSP) you can submit your comments by turning in this completed comment form tonight in the comment box located at the sign-in table; faxing your comments to (415) 896-0332; emailing your comments to MPWSP-EIR@esassoc.com, or mailing them to the following address:

Attn: Andrew Barnsdale  
 California Public Utilities Commission  
 c/o Environmental Science Associates  
 550 Kearny Street, Suite 800  
 San Francisco, CA 94108

Comments should pertain to the accuracy and adequacy of the Draft EIR prepared for the MPWSP. All comments must be received by the CPUC no later than July 1, 2015. PLEASE PRINT LEGIBLY.

Comment:

PAGE 44-65 "the slant wells would extract groundwater from the offshore portion of the Sand Dune and 180-Foot Equivalent Aquifers and not the 400-Foot Aquifer".

These statements are negated by areas of influence and cone of depression charts. These wells will extract substantial groundwater from inland. Insisting on this language is misleading and self serving on the outcome of the project. Be honest and make correct statements that it will extract the majority of water from offshore. This must be corrected on the FEIR.
