Rosemead, CA 91770

SUBJECT: Data Request No. 2 for the San Joaquin Cross Valley Loop Project (A.08-05-039)

Dear Ms. Nelson:

As the California Public Utilities Commission (CPUC) proceeds with our review of Southern California Edison (SCE)'s Application and Proponent's Environmental Assessment (PEA) for the San Joaquin Cross Valley Loop Project, we have identified additional information required to complete our analysis of the Proposed Project. Please provide the information requested below:

1. Please identify any equipment upgrades (reconductoring, improvements, etc.) that are not already described in the PEA that SCE is planning to undertake in the next five years to the electrical system that falls within the boundaries of the Electrical Needs Area illustrated in Figure 1.1. Please superimpose these projects on a map of the proposed SJXVL project with footnotes that describe the purpose and function of the upgrade.

We would appreciate your prompt response to this data request by July 3, 2008, which will help us maintain our schedule for analysis and processing of this application. Please submit your response in hardcopy and electronic (PDF) format to me and also directly to our environmental consultant, ESA, at the mail and e-mail addresses noted below. If you have any questions please direct them to me as soon as possible.

Sincerely,

A handwritten signature in blue ink that reads "Jensen Uchida".
