

ED11-SDGE 04/27/15 Partial Response 2
A.14-04-011 SXPQ 230kV Transmission Line CPCN Project
Energy Division Data Request 11 Dated April 14, 2015
ED11-SDGE Question 2

Q#	Summary of SDG&E Response Submittals	Confidential	Response Status
1-2	04/14/15 – Submittal 1: Q1	None	Complete
2	04/27/15 – Submittal 2: Q2	None	Complete

REPORT OVERVIEW

The California Public Utilities Commission (CPUC) has identified several areas where more information is needed to prepare a complete and adequate analysis of the potential environmental effects of a range of alternatives in accordance with the requirements of the California Environmental Quality Act (CEQA). Data needs are identified in bold. Clarifying information is provided below the data need.

#	Reference Source, Page #	Data Need	SDG&E Response
2	Data Request #9, Response #3	<p>Provide a list of all rare plant species and identify project locations for which rare plant surveys are ongoing and where the results of which will not be available to the CPUC by April 30, 2015.</p> <p>For any project area where the results of rare plant surveys are not provided by April 30th, the CPUC will need to presume presence of the individual plant species and require impact avoidance as mitigation in order to meet the schedule for release of the Draft EIR. Alternatively, if desired by SDG&E, the release date of the draft EIR can be delayed until project planning surveys are completed.</p>	<p>See attachments ED11 – Q2(a)_Rare Plant Memo and ED11 – Q2(b)_GIS data for the requested information.</p> <p>Three rounds of surveys will be conducted in 2015. The first round of 2015 surveys was completed between March 30 and April 14, 2015. This memorandum includes the special-status plant species observation data collected during those surveys.</p> <p>The second round of 2015 surveys is planned for early to mid-May 2015. An updated memorandum that includes the results of the second round of 2015 surveys will be submitted to the CPUC by June 1, 2015.</p> <p>The third round of surveys is planned for late July 2015. A final special-status plant survey summary report will be prepared following completion of the July 2015 surveys. This report will provide additional detail in the methods and results of the entire special-status plant survey effort conducted for the Proposed Project. We anticipate that this final special-status plant survey summary report will be</p>
