

Rulemaking 14-10-003 Workshop on

Assigned Commissioner's Ruling Introducing a Draft Regulatory Incentives Proposal

August 4, 2016

Workshop Purpose

to consider Commissioner Florio's proposed regulatory process for identifying, selecting, deploying and verifying cost-effective distributed energy resources

and

alternatives to that proposal

Agenda

- 10:00 – 10:15: Overview
- 10:15 – 10:45: Presentation of Florio proposal
- 10:45 – 11:15: Presentation of ORA proposal
- 11:15 – 12:15: Presentation of IOU proposal
- 12:15 – 12:30: Perspective from Vote Solar
- 12:30 – 1:00: Discussion
- 1:00 – 2:00: Lunch break or Conclusion (as necessary)
- 2:00 – 4:00: Discussion (as necessary)

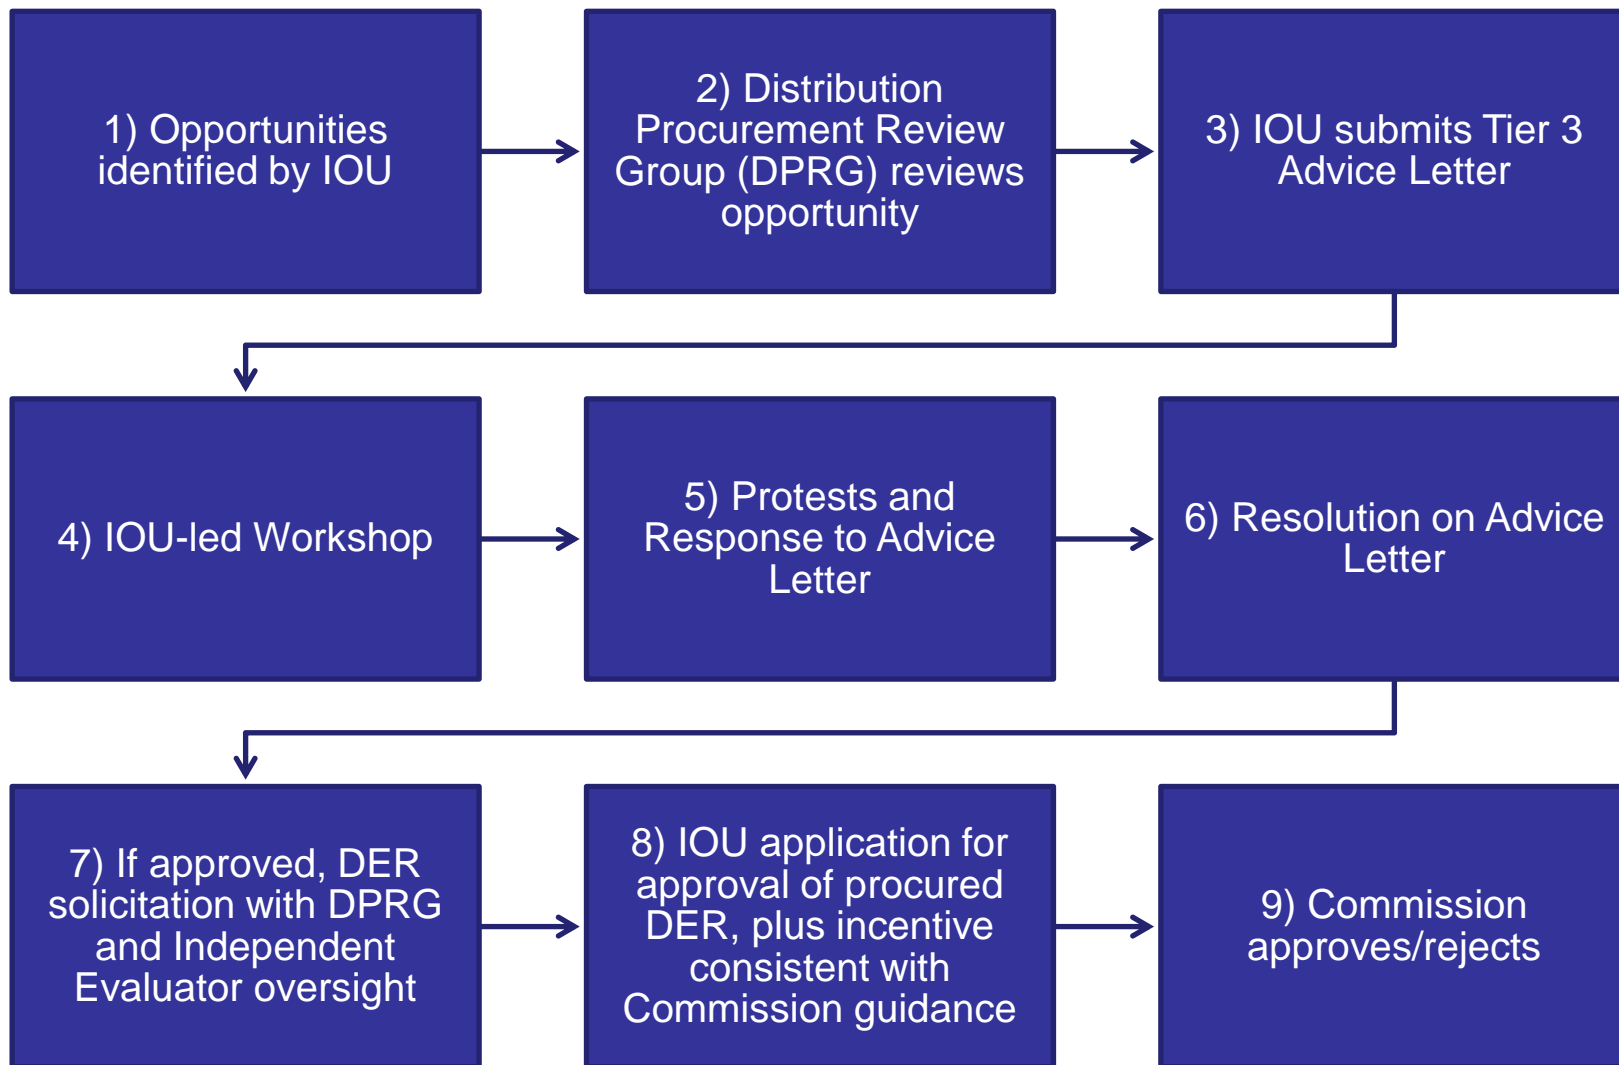

Procedural Next Steps

- August 4: Incentives Workshop
- ~ August 20: Ruling issuing revised Incentives Pilot proposal for comment
- August 22 and 31: Comments and reply on CSFWG report due
- September 9 and 16: Comments and reply comments on revised Incentives Pilot proposal due
- Decision on CSFWG and Incentives Pilot by EOY

Commissioner Florio's Pilot Proposal

Questions raised in comments

- How to best review project opportunities identified for this pilot by the IOUs?
- Role of DPRG, PRG, IPE, and/or other advisory groups?
- How to better balance oversight and timeliness?
 - Alternatives to advice letters, workshops, and applications?
- Potential alignment with Competitive Framework Solicitation Working Group recommendations and/or DRP Demos?

Ongoing considerations...

- Whether/how to review need identification from Distribution Planning Process (DRP)?
- How to ensure DER actually displaces/defers distribution capex?
- What is “Plan B” if DER does not meet needs in practice?
- Future of incentives and business models beyond the pilot?

Thank You
