Re: Marin Energy Authority Registration Letter

Dear Ms. Weisz:

The purpose of this letter is to confirm that Marin Energy Authority is registered as a Community Choice Aggregator by the California Public Utilities Commission.

Pursuant to Public Utilities (P.U.) Code Section 366.2(c)(14) "the community choice aggregator shall register with the commission, which may require additional information to ensure compliance with basic consumer protection rules and other procedural matters". To implement this statute, the California Public Utilities Commission ("Commission") issued Decision 05-12-041 adopting the following basic consumer protection requirements with which Community Choice Aggregation (CCA) programs must comply:

"Each CCA registration packet should be required to include (1) the CCA's service agreement with the serving utility; and (2) evidence of insurance or a bond that will cover such costs as potential re-entry fees, penalties for failing to meet operational deadlines, and errors in forecasting."

Pursuant to Resolution E-4133, the Commission adopted an interim bond amount of \$100,000 (or that amount in cash) that CCAs shall post with the Commission as part of their registration packet pursuant to Decision 05-12-041.

On February 17, 2010, the Commission received the CCA Service Agreement that has been executed between Marin Energy Authority (MEA) and Pacific Gas and Electric (PG&E). On April 6, 2010, the Commission received a check in the amount of \$100,000 from the Marin County Director of Finance, satisfying the MEA's interim CCA bond requirement pursuant to Commission Resolution E-4133.

With the submittal of the executed CCA Service Agreement with PG&E and the cash deposit of \$100,000, the MEA has fulfilled the statutory mandate and the regulatory requirements necessary to be registered as a CCA by the Commission.

MEA is hereby registered as a CCA in the State of California.

Sincerely,

A handwritten signature in black ink that reads "Paul Clanon".
