King City, CA 93930

RE: Letter certifying King City Community Power's Implementation Plan and Statement of Intent

Dear Ms. Foley:

The California Public Utilities Commission's Energy Division has reviewed King City Community Power's (KCCP) Implementation Plan and Statement of Intent to begin service in King City, which was submitted to us on December 15, 2017.

Pursuant to Public Utilities Code Section 366.2 (c)(7), within 90 days after the Community Choice Aggregator (CCA) establishing load aggregation files an Implementation Plan, the Commission is required to certify that it has received the Implementation Plan, including any additional information necessary to determine a cost-recovery mechanism.

Public Utilities Code Section 366.2 (c)(3) requires a CCA Implementation Plan to contain all of the following:

- A) An organizational structure of the program, its operations, and its funding.
- B) Rate setting and other costs to participants.
- C) Provisions for disclosure and due process in setting rates and allocating costs among participants.
- D) The methods for entering and terminating agreements with other entities.

- E) The rights and responsibilities of program participants, including, but not limited to, consumer protection procedures, credit issues, and shutoff procedures.
- F) Details regarding termination of the program.
- G) A description of the third parties that will be supplying electricity under the program, including, but not limited to, information about financial, technical and operational capabilities.

Pursuant to Public Utilities Code Section 366.2 (c)(4), a CCA is also to prepare and provide for all of the following:

- A) A statement of intent; and
- B) Provision(s) that provide for:
  - 1) Universal access;
  - 2) Reliability;
  - 3) Equitable treatment of all classes of customers; and
  - 4) Compliance with any legal requirements concerning aggregated service.

The Commission hereby certifies that the Implementation Plan and Statement of Intent submitted by KCCP contain the information required by Public Utilities Code Section 366.2 (c). KCCP has also included a Statement of Intent as part of its Implementation Plan pursuant to Public Utilities Code Section 366.2 (c)(4).

Pursuant to P.U. Code Section 366.2 (c)(7), the Commission is required to provide KCCP with "its findings regarding any cost recovery that must be paid by customers of the community choice aggregator to prevent a shifting of costs as provided for in P.U. Code Section 366.2 subdivisions (d), (e) and (f)." The costs referenced in P.U. Code Section 366.2 subdivisions (d), (e) and (f) are recovered via separate charges for: (1) PG&E's Energy Cost Recovery Amount Charge (per kWh); (2) Power Charge Indifference Adjustment (per kWh); (3) DWR Bond Charge (per kWh); and (4) Competition Transition Charge (CTC) (per kWh). By this letter, the Commission informs KCCP that these costs are identified on each of PG&E's customer-class-specific tariff sheets, in the "Special Conditions" section, sub-section "Billing," in the section labeled "Direct Access (DA) and Community Choice Aggregation (CCA) customers" in the column labeled "Community Choice Aggregation Cost Responsibility Surcharge (CCA CRS)."

PG&E may have already procured Resource Adequacy for load KCCP intends to serve in 2018. Therefore, in order to serve customer load in 2018, KCCP must participate in the waiver process set forth in Ordering Paragraph 3 of Resolution E-4907 adopted by the Commission on February 8, 2018. If KCCP does not participate in the waiver process, KCCP is authorized to begin serving customer load in 2019 pursuant to Ordering Paragraph 2 of Resolution E-4907.

Sincerely,

FOR

Edward Randolph  
Director, Energy Division  
California Public Utilities Commission
