January 8, 2018

Emily Shults
Vice President - Electric & Fuel Procurement
San Diego Gas & Electric
8330 Century Park Court, Room 32C
San Diego, CA 92123-1548

Dear Ms. Shults,

The Energy Division of the California Public Utilities Commission (Commission) approves San Diego Gas and Electric Company’s (SDG&E) October 31, 2017 request for a penalty waiver and December 6, 2017 supplement to the waiver request.

Commission Decision (D.) 06-06-064 established waiver provisions for local Resource Adequacy (RA) procurement. D.17-06-027 established 2018 compliance year obligations for all Load Serving Entities (LSEs). On October 31, 2017, SDG&E submitted its year-ahead local RA compliance filing, showing a deficiency in the San Diego-Imperial Valley local area. SDG&E also submitted a request for penalty waiver for this deficiency pursuant to D.06-06-064. On December 6, 2017, SDG&E filed a supplement to its waiver request revising the amount of its deficiency.

Section 3.3.12 of D.06-06-064 describes a standard that an LSE may use to demonstrate that it could not reasonably achieve its LCR obligations:

(1) a demonstration that the LSE reasonably and in good faith solicited bids for its RAR capacity needs along with accompanying information about the terms and conditions of the Request for Offer or other form of solicitation, and

(2) a demonstration that despite having actively pursued all commercially reasonable efforts to acquire the resources needed to meet the LSE’s local procurement obligation, it either

(a) received no bids, or

(b) received no bids for an unbundled RA capacity contract of under $40 per kWe-year or for a bundled capacity and energy product of under $73 per kWe-year, or

(c) received bids below these thresholds but such bids included what the LSE believes are unreasonable terms and/or conditions, in which case the waiver request must demonstrate why such terms and/or conditions are unreasonable.
An LSE’s waiver request that meets these requirements is a necessary but not a sufficient condition for the grant of such waiver. The Commission will also consider other information brought to its attention regarding the reasonableness of the waiver request.

Energy Division has reviewed SDG&E’s actions and finds them reasonable considering the capacity available to meet SDG&E’s local RA obligation. In this case, Energy Division finds that SDG&E held a solicitation and pursued all commercially reasonable efforts to acquire the resources needed to meet the LSE’s local procurement obligation. SDG&E’s waiver request includes confidential market-sensitive information supporting this finding. Thus, Energy Division grants SDG&E’s request for a waiver of Commission penalties related to its year-ahead 2018 local RA procurement.

Sincerely,

[Signature]

Edward F. Randolph, Director
Energy Division
