Mitch Sears, Interim General Manager
Valley Clean Energy Alliance
604 2nd Street
Davis, CA 95616

RE: Letter Certifying Valley Clean Energy Alliance’s Addendum No. 1 Implementation Plan and Statement of Intent

Dear Mr. Sears:

The California Public Utilities Commission’s Energy Division has reviewed Valley Clean Energy’s Addendum No. 1 Implementation Plan and Statement of Intent, which was submitted to us on December 27, 2019 to begin phase-in of service to the city of Winters, effective January 1, 2021.

Pursuant to Public Utilities Code Section 366.2 (c)(7), within 90 days after the Community Choice Aggregator (CCA) establishing load aggregation files an Implementation Plan, the California Public Utilities Commission is required to certify that it has received the Implementation Plan, including any additional information necessary to determine a cost-recovery mechanism.

Public Utilities Code Section 366.2 (c)(3) requires a CCA Implementation Plan to contain all of the following:

A) An organizational structure of the program, its operations, and its funding.
B) Rate setting and other costs to participants.
C) Provisions for disclosure and due process in setting rates and allocating costs among participants.
D) The methods for entering and terminating agreements with other entities.
E) The rights and responsibilities of program participants, including, but not limited to, consumer protection procedures, credit issues, and shutoff procedures.
F) Details regarding the termination of the program.
G) A description of the third parties that will be supplying electricity under the program, including, but not limited to, information about financial, technical and operational capabilities.
Pursuant to Public Utilities Code Section 366.2 (c)(4), a CCA is also to prepare and provide for all of the following:

A) A statement of intent; and
B) Provision(s) that provide for:
   1) Universal access;
   2) Reliability;
   3) Equitable treatment of all classes of customers; and
   4) Compliance with any legal requirements concerning aggregated service.

The California Public Utilities Commission hereby certifies that the Addendum No. 1 Implementation Plan and Statement of Intent submitted by Valley Clean Energy Alliance contains the information required by Public Utilities Code Section 366.2 (c). Should there be any modification to the Implementation Plan, including but not limited to the start date, anticipated load and phase-in schedule, Valley Clean Energy Alliance shall submit an updated Implementation Plan to the California Public Utilities Commission in the same manner it submitted the original plan.

Pursuant to P.U. Code Section 366.2 (c)(7), the California Public Utilities Commission is required to provide Valley Clean Energy Alliance with “its findings regarding any cost recovery that must be paid by customers of the community choice aggregator to prevent a shifting of costs as provided for in P.U. Code Section 366.2 subdivisions (d), (e) and (f).” The costs referenced in P.U. Code Section 366.2 subdivisions (d), (e) and (f) are recovered via separate charges for: (1) Power Charge Indifference Adjustment (per kWh); (2) DWR Bond Charge (per kWh); and (3) Competition Transition Charge (CTC) (per kWh). By this letter, the California Public Utilities Commission informs Valley Clean Energy Alliance that these costs are identified on each of Pacific Gas & Electric’s customer-class-specific tariff sheets, in the “Special Conditions” section, sub-section “Billing,” in the section labeled “Direct Access (DA) and Community Choice Aggregation (CCA) customers” and in the column labeled “Community Choice Aggregation Cost Responsibility Surcharge (CCA CRS).”

Sincerely,

[Signature]
