

Michael Clayton & Associates

A **visual simulation** of the Proposed Project from Key Viewpoint 15 on westbound Mesa Grande Road, just northwest of Green Oaks Drive. This view is to the northwest toward proposed structures C45 (closest) and C46. The Proposed structures and access road would be prominently visible to the south of Mesa Grande Road and would introduce considerable industrial character and visual contrast into the predominantly rural landscape. The structures and conductors would also cause substantial view blockage of the surrounding hills, ridgelines, and sky.
