

Michael Clayton & Associates

A **visual simulation** of the West Buckman Springs Alternative route location from Key Viewpoint 56 on northbound Buckman Springs Road, approximately 0.1 mile south of the split to I-8 access. This view to the north up Cottonwood Valley captures the West Buckman Springs route as it parallels I-8 along the west side of Cottonwood Valley. As shown in the simulation, the structures and access road would be visually prominent and would introduce substantial visual contrast and industrial character into a landscape that is predominantly natural in appearance.
