

Source: South Bay Replacement Project AFC

- A** The **existing view** to the east toward the South Bay Power Plant from the Silver Strand (SR 75) and bayfront trail. This portion of SR 75 is a designated State Scenic Highway. The power plant is backdropped by San Miguel Mountain.
- B** This image presents a **visual simulation** of the South Bay Replacement Project (SBRP). The simulation illustrates the removal of the existing power plant and the addition of the SBRP to the shoreline landscape south of the existing plant.
