Notification of Availability
Joint Final Environmental Impact Report
Final Environmental Impact Statement (FEIR/FEIS)
Master Special Use Permit and Permit to Construct
Power Line Replacement Projects And
Opportunity to Object Forest Service Draft Record of Decision
The U.S. Forest Service (Forest Service), Cleveland National Forest (CNF) and the California Public Utilities Commission (CPUC) have prepared a Joint Final Environmental Impact Report/Final Environmental Impact Statement (FEIR/FEIS) under the California Environmental Quality Act (CEQA) and National Environmental Policy Act (NEPA) for the San Diego Gas & Electric Company (SDG&E) Master Special Use Permit (MSUP) and Permit to Construct Power Line Replacement Projects. The MSUP would authorize SDG&E to upgrade and/or relocate certain electric powerlines on National Forest System lands, while providing for the operation and maintenance of the SDG&E electric powerline system on the CNF. The CPUC must also approve the proposed Power Line Replacement Projects by issuing a Permit to Construct for power lines proposed for replacement both on and off National Forest System lands. The project area is located in multiple locations within the Trabuco, Palomar and Descanso Ranger Districts, Cleveland National Forest, Orange and San Diego Counties, California.

Approval of the MSUP would allow for the continued operation and maintenance of SDG&E electric facilities within the CNF and authorize the replacement of certain existing power lines on and adjacent to CNF lands. MSUP approval is being requested by SDG&E because the existing authorizations within the CNF are expired, and the existing power lines are needed to supply power to local communities, residences, and government-owned facilities located within and adjacent to the CNF. Additional information may also be found on the project webpage at:
<http://www.cpuc.ca.gov/environment/Info/dudek/CNF/CNF.htm>

By this notice, the Forest Service is announcing that Forest Supervisor William Metz has prepared a Draft Record of Decision (Draft ROD) for the MSUP. The proposed decision described in the Draft ROD would authorize SDG&E to fire harden certain power lines, relocate other power lines, and operate and maintain other existing power lines on National Forest System lands within the Cleveland National Forest as described by the Federal Preferred Alternative in the FEIR/FEIS. This proposed decision applies only to SDG&E improvements on National Forest System lands. The Draft ROD is available for review at the project webpage listed above.

The proposed decision by the Forest Service to authorize SDG&E facilities on National Forest System lands is subject to the Forest Service predecisional administrative review (referred to as "objection") process pursuant to 36 CFR 218, Subparts A and B. Decisions made by other agencies for project components within their jurisdiction are not subject to administrative review under these rules. Objections will only be accepted from those who submitted timely project-specific written comments during scoping, supplemental scoping, or during the Draft EIR/EIS comment period. Issues raised in objections must be based on previously submitted comments unless based on new information arising after the designated comment periods.

Objections must be submitted within 45 days following the publication of this legal notice in the San Diego Union Tribune. The date of this legal notice is the exclusive means for calculating the time to file an objection. Those wishing to object should not rely upon dates or timeframes provided by any other source. It is the objector's responsibility to ensure evidence of timely receipt (36 CFR 218.9).

Objections must be submitted to the reviewing officer: Randy Moore, Regional Forester, USDA Forest Service; Attn: SDG&E MSUP; 1323 Club Drive, Vallejo, CA 94592. Ph. (707) 562-8737. Objections may be submitted via mail, FAX (707-562-9229), or delivered during business hours (M-F 8:00am to 4:00pm). Electronic objections, in common (.doc, .pdf, .rtf, .txt) formats, may be submitted to:

objections-pacificsouthwest-regional-office@fs.fed.us
with Subject: SDG&E MSUP.

Objections must include (36 CFR 218.8(d)): 1) name, address and telephone; 2) signature or other verification of authorship; 3) identify a single lead objector when applicable; 4) project name, Responsible Official name and title, and name of affected National Forest; 5) reasons for, and suggested remedies to resolve, your objections; and, 6) description of the connection between your objections and your prior comments. Objectors may incorporate documents by reference only as provided for at 36 CFR 218.8(b).

For additional information concerning the Forest Service objection process, contact Jeff Heys, Forest Planner, Cleveland National Forest, at 858-674-2959, or jaheys@fs.fed.us pub: 7/10/15
