**Importance:** High

Hello –

I am looking at the CalAm MPWSP DEIR, and in reviewing Figure ES-2 it is unclear as to whether the proposed transmission line related construction will need to utilize Fort Ord Dunes State Park property. Figure 3-6 depicts the proposed transmission line on the west side of Highway 1 at Fort Ord Dunes State Park (FODSP) and while 3.4.3.4 mentions that the transmission line is within the TAMC ROW it is again unclear to what extent the project will need to utilize FODSP. Clarity on these items would be greatly appreciated.

FODSP is currently in the process of developing an extensive multi-agency HCP for the park unit. This project was not covered, to my knowledge, in the HCP document. FODSP is host to an assortment of endangered species. If the project will utilize, and potentially impact, FODSP resources we would request a detailed list of these construction related impacts, by area, and request that you contact the Fort Ord Reuse Authority to inform them of the project and need to utilize FODSP lands.

Thank you
