SGIP MAP USER MANUAL

To qualify for the SGIP incentive as a residential customer, you are likely located in an area that is:
- blue AND purple,
  OR
- blue AND orange

To qualify for the SGIP incentive as a non-residential customer, you likely:
- provide certain types of services,
- are located in a purple or orange area,
- AND serve a community that is green and purple OR green and orange.

Additional eligibility information available here.

Residential map:
- Blue shows neighborhood revitalization areas, enterprise and empowerment zones, and qualified census tracts. See Definitions and Data Sources for more information. Under SGIP, these are areas that are deemed to have a “presumed resale restriction.”
  - Targeted employment areas are not shown on this map.
  - You do not need to be in a blue area to qualify if you live in a target employment area, your home is subject to a resale restriction, or if you live in a building that has certain deed restrictions.
- Purple shows areas that are in Tier 2 or Tier 3 High Fire Threat Districts.
- Orange shows areas that have experienced 2 or more Public Safety Power Shutoff events.

Non-Residential map:
- Green shows Disadvantaged Communities, income qualified census tracts, and California Indian Country. See Definitions and Data Sources for more information.
- Purple shows areas that are in Tier 2 or Tier 3 High Fire Threat Districts.
- Orange shows areas that have experienced 2 or more Public Safety Power Shutoff events.

HOW TO USE SGIP MAPPING TOOL

1. Search for the location in the address bar.
Or navigate to the desired location of interest. Use the “Zoom to” feature to ensure the census tract displayed contains your location of interest.

A dialogue box will tell you whether or not this location likely meets the various eligibility criteria for the SGIP Equity or Equity Resiliency budget.
2. Click the arrow at the top right corner of the pop-up box to navigate to any additional criteria this location qualifies for.
3. Click the window icon on the top right corner of the dialogue box to expand the window.
4. Note that if you select an area that is covered by gray borders, you have selected multiple census tracts, and multiple dialogue boxes will appear.

To load only the dialogue boxes that pertain to the location of interest, zoom into the location of interest, and click the center of the census tract to load the dialogue box that pertains to the location of interest.

If the location of interest is on the border of multiple census tracts (shown by gray outlines), select the center of each census tract to accurately identify the eligibility criteria associated with each census tract.
5. If the location of interest results in no dialogue boxes, the location meets no eligibility criteria. These areas are not covered by the green, purple, or orange colors, and only the grey basemap will show through.
