Item 5. DACAG Priority Topics – Update by Working Groups

- Storage – Stan: Several recommendations provided by the DACAG in June 2019 were included in the CPUC’s Self-Generation Incentive Program decision, which was approved by the CPUC on September 12, 2019.
- Transportation electrification – Adrian: The CEC’s 2019-2020 Clean Transportation Investment Plan was approved by the CEC on Sept 11, 2019. Several recommendations made by the DACAG were incorporated into the final plan.
- Building electrification – Stephanie: Gridworks recently released a paper looking at the impacts of mass-scale building electrification on low-income gas customers, workforce, etc. Highlighted the need for long-term planning for low-income and environmental justice communities. Greenlining will be releasing a report on October 3, 2019 about building electrification in low-income as well.
