

Item 3: Discussion of existing and future DACAG priority topics and CPUC/CEC proceedings

2018-2019 Highlighted Topics for the Disadvantaged Communities Advisory Group

- Incorporating the Equity Framework into the CEC's Energy Equity Indicators (report and tool)
- Review existing and emerging programs and proceedings and review, engage, and comment on issues¹

2018-2019 Proceedings of Interest to the Disadvantaged Communities Advisory Group

- San Joaquin Valley Affordable Energy Climate Adaptation
- Storage
- Electric Program Investment Charge (EPIC)
- Disadvantaged Communities Net Metering

Ideas mentioned during May 3, 2019 meeting (needing more discussion and fine-tuning)

Proceedings:

- Transportation electrification
- Renewable Natural Gas/Biomethane
- Building electrification and fuel switching in buildings (how to reach people and not just the buildings)

Other:

- Workforce development and Labor standards and climate investments
- Study (and educate others about) the perceived displacement of jobs in the fossil fuel industry from investments in clean energy and jobs
- Recommendations from the SB 350 Barriers study, in particular:
 - Coordination with CBOs
 - Consideration of non-energy benefits (relationship with AB 961)
- AB 617 communities

¹ During the May 3, 2019 meeting, the Advisory Group was exploring how to expedite providing comments on topics, proceedings, and programs. No decision was reached.
