Subject: Public Safety Power Shut-Off Letter

Dear Mr. Ghilarducci, Mr. Pimlott, President Picker, and Commissioner Rechtschaffen:

Thank you for your letter dated October 26, 2018.

The health and safety of the public and our customers is our number one priority. We also take seriously the informational needs of our customers, emergency responders, regulators, and local government officials. Accordingly, we respond to your correspondence of last week, to indicate our collective desire to provide the information requested and work collaboratively with your agencies.

We also identify here general areas in your letter that would benefit from additional discussion so that our operational and legal responsibilities are not unduly restricted during any Public Safety Power Shut-off (PSPS) incident. The areas we believe would benefit from additional discussion between our staffs include implementation details, data needs, and customer information. Early discussion of your requests will allow for the most seamless sharing of information during potential PSPS events.

Accordingly, we jointly request the opportunity to meet with you to discuss these provisions so that we may better align your informational needs with our operational and public-safety needs during critical events. One of our staff will contact your offices to work on scheduling this meeting.

Sincerely,

Mr. Andrew S. Martinez
Vice President, Safety Security and Business Resiliency
Southern California Edison

Mr. Sumeet Singh
Vice President, Community Wildfire Safety Program
Pacific Gas & Electric Company

Ms. Katie Speirs
Vice President, Electric System Operations
San Diego Gas & Electric Company
