

# Emergency response Exercises

In a concerted effort to build strong relationships with Federal, State and utility entities the California Public Utilities Commission (CPUC) encourages the participation of CPUC staff in emergency response and management exercises.

The objective of participating in these exercises is twofold; 1. Increase CPUC staff knowledge of the Incident Command System. 2. Build interagency relationships between the CPUC and other affected agencies and utilities.

Below is a current list of upcoming events and exercises. The list is broken down by agency and/or utility. A point of contact is listed with each agency/utility that you can coordinate with to participate in either an observer role or participant. The list will be updated monthly by SED. Point of contact for this list is Lee Palmer, [leslie.palmer@cpuc.ca.gov](mailto:leslie.palmer@cpuc.ca.gov)
