PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Resolution M-4839
Administrative Services Division
January 10, 2019

R E S O L U T I O N

Resolution M-4839. Adopts level of Public Utilities Commission Utilities Reimbursement Account User Fees, effective April 1, 2019.

SUMMARY

This resolution adopts Public Utilities Commission Utilities Reimbursement Account (PUCURA), Fund 0462, user fees as follows:

Electric Corporations	0.00058	\$/ kwh
Gas Corporations	0.00247	\$/therm
Heat Corporations	0.02713	\$/thousands lbs. steam
Water and Sewer System Corporations	0.0123 (01.23%)	x Revenue
Telephone and Telegraph Corporations	0.0034	x Revenue

The increased expenditure level granted by the Fiscal Year (FY) 2018-19 Governor's Budget and the expected increase in the FY 2019-20 Governor's Budget account for increases in rates. A modification was also made to align proportionate revenues and expenditures by utility class, pursuant to PU Code 432(a)(2).

BACKGROUND

The California Public Utilities Commission (CPUC) uses Public Utilities Code as the basis for its methodology to annually assess user fees for energy, water, and telecommunication utilities.

Public Utilities Code Section 431:

(a) The commission shall annually determine a fee to be paid by every electrical, gas, telephone, telegraph, water, sewer system, and heat corporation and every other public utility providing service directly to customers or subscribers and subject to the jurisdiction of the commission other than a railroad, except as otherwise provided in Article 2 (commencing with Section 421), for common carriers and related businesses, and as otherwise provided in Section 319, for a prepaid MTS provider, as defined in Section 42004 of the Revenue and Taxation Code.

(b) The annual fee shall be established to produce a total amount equal to that amount established in the authorized commission budget for the same year, including adjustments for increases in employee compensation, other increases appropriated by the Legislature, and an appropriate reserve to regulate public utilities less the amount to be paid from special accounts or funds pursuant to Section 402, reimbursements, federal funds, and any other revenues, and the amount of unencumbered funds from the preceding year.

(c) This article shall not apply to any electrical cooperative as defined in Chapter 5 (commencing with Section 2776) of Part 2.

(d) This section shall remain in effect only until January 1, 2020, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2020, deletes or extends that date.

Public Utilities Code Section 432:

The commission shall establish the fee pursuant to Section 431 with the approval of the Department of Finance and in accordance with all of the following:

(a) In its annual budget request, the commission shall specify both of the following:

(1) The amount of its budget to be financed by the fee.

(2) The dollar allocation of the amount of its budget shall be financed by the fee by each class of public utility subject to the fee. The fee allocation among classes of public utilities shall reflect expenditures by the commission on regulatory and other authorized activities affecting each respective class, and shall bear the same ratio that the commission's workload for each class of public utility subject to the fee bears to the commission's total workload for all public utilities subject to the fee.

(b) The commission may establish different and distinct methods of assessing fees for each class of public utility, if the revenues collected are consistent with paragraph (2) of subdivision (a), except that the commission shall establish a uniform charge per kilowatt hour for sales in kilowatt hours for the class of electrical corporations and a uniform charge per therm for sales in therms for the class of gas corporations.

(c) Within each class of public utility subject to the fee, the commission shall allocate among the members of the class the amount of its budget to be financed by the fee using the following methods:

(1) For electrical corporations, the ratio that each corporation's sales in kilowatt hours bears to the total sales in kilowatt hours for the class.

(2) For gas corporations, the ratio that each corporation's sales in therms bears to the total sales in therms for the class.

(3) For telephone and telegraph corporations, the ratio that each corporation's gross intrastate revenues bears to the total gross intrastate revenues for the class. If the commission determines that there is a need for consultants or advisory services to assist in determining the reasonableness of capital expenditures for a telephone corporation, the commission may adjust the fees within the class so that the expenses for the consultants and advisory services are fully allocated to that telephone corporation.

(4) For water and sewer system corporations, the ratio that each corporation's gross intrastate revenues bears to the total gross intrastate revenues for the class.

(5) For all other public utilities, an appropriate measurement methodology determined by the commission.

(d) Every public utility belonging to more than one class shall be subject to the fee for each class of which it is a member.

(e) For every public utility with annual gross intrastate revenues of seven hundred fifty thousand dollars (\$750,000) or less, the commission shall annually establish uniform fees to be paid by each such public utility, if the revenues collected thereby are consistent with paragraph (2) of subdivision (a) and subdivision (c).

DISCUSSION

Revenue and Expenditure Analysis

The Governor's Budget structures PUCURA's authorized expenditures by Program and Subprogram, as shown below in Table 1. Subtasks, the most granular level of detail by utility class (electricity, gas, sewer, steam), are not displayed in the Governor's Budget but tracked internally by CPUC.

Table 1: Governor's budget structure, PUCURA

Program	Subprogram	Subtask (Utility Class)
Regulation of Utilities (6680)	Energy (6680055)	Electric Corporations Gas Corporations Steam Corporations
	Water (6680064)	Water Corporations Sewer Corporations
	Communications (6680073)	Telephone and Telegraph Corporations Video Service Providers

In addition to the CPUC's budgeted expenditures from PUCURA, the fund supports expenditures of the Public Advocates Office (PUBADV) Fund 3089, the Air Resources Board (Org 3900), the Office of Environmental Health and Hazard Assessment (Org 3980), and statewide fund assessments.

Table 2 shows PUCURA's current level expenditures and FY 2019-20 estimated changes, distributed by Utility Class per Table 1. Estimated 2019-20 change is subject to adjustment in the Governor's Budget process and subsequent legislative budget process.

Table 3 and Table 4 below display, by utility class, the comparison between revenue and expenditures. Table 3 shows that with no fee increase, PUCURA will incur an operating deficit of \$34,649,000. With no fee increase, the projected fund balance for

¹ From the 2018-19 Governor's Budget; expenditures do not include reimbursable spending authority.

² From the 2018-19 Governor's Budget; allocated by workload data by utility class.

³ From the 2018-19 Governor's Budget; allocated by workload data by utility class.

⁴ 2019-20 begins July 1, 2019, the 2019 fee increase covers these expenditures for half of calendar year 2019.

PUCURA for 2019-20 is \$9,263,000 (Table 5), a decrease of \$41,967,000 from the 2017-18 closing fund balance of \$51,230,000.

Fund Reserve Analysis

CPUC’s fund reserve policy for PUCURA requires a fund reserve of 25-50 percent of expenditures. Table 5 shows the expected fund reserve for 2018-19 and 2019-20, using current revenue rates. At the 2019-20 expected level of expenditures, the fund reserve policy requires at least \$51,650,000.

⁵ Ratios were calculated by dividing each utility type’s revenues and expenditures over the total estimated.

Table 5. PUCURA Fund reserve summary, unadjusted revenue rates

Line	Item	2018-19	2019-20
A	Beginning-of-Year Fund Reserve	\$51,230,000	\$43,912,000
B	Estimated User Fee Revenues (if no rate change)	171,949,000	171,949,000
C	Estimated Expenditures	(179,267,000)	(206,598,000)
D	Net Fund Increase/(Decrease) (B - C)	(7,318,000)	(34,649,000)
E	Estimated Ending Fund Reserve (A-D)	\$43,912,000	\$9,263,000
F	Necessary minimum reserve (25% of C for 2019-20)		\$51,650,000
G	Less: Beginning-of-Year Reserve (2019-20)		(\$43,912,000)
H	Additional revenue required to maintain 25% reserve		\$7,738,000

Necessary Revenue Increase

Using the revenue increases summarized in Table 6 below, PUCURA requires additional revenue of \$42,387,000 to maintain a sufficient fund reserve. The increase related to Line 1 will be collected in 2018-19. Lines 2 and 3 will be recovered over three years to reduce impact on ratepayers, and allow PUC to annually analyze received revenues and make any needed adjustments.

Table 6. Required revenue increase, summary

Line	Required Revenue Increase	Total	Revenue Required 2018-19	Revenue Required 2019-20 & 2020-21
1	Increase in revenue to match FY2018-19 Net Fund Decrease (Table 5, Line D)	\$7,318,000	\$7,318,000	\$ -
2	Increase in revenue to maintain fund reserve (Table 5, Line H)	7,738,000	2,579,000	2,579,000
3	Increase in revenue required for FY2019-20 commitments (Table 2)	27,331,000	9,110,000	9,110,000
	Total increase in revenue required	\$42,387,000	\$19,007,000	\$11,689,000

Using the Adjusted Proportional Revenue rates in Table 4, Table 7 allocates PUCURA's increase of \$15,056,000 (Table 6, Lines 1 and 2) for 2018-19. Line 3 amounts, 2019-20 commitments, are distributed by workload by utility class.

User Fee Calculations

Using the revenue requirement summarized in Table 7 by utility class, user fees were determined using the projected energy or revenue base for each utility class. Resulting user fees shown in Table 8 below. Table 9 compares the proposed changes to PUCURA user fees to current fee levels.

Table 8. User Fee Calculation

Utility Class	Estimated Equivalent energy or revenue base A	Unit	Required Revenue (Table 6) B	Resulting (new) user fee B / A

COMMENTS ON DRAFT RESOLUTION

In accordance with Public Utilities Code Section 311(g), CPUC published this draft resolution on its website and sent copies to regulated entities.

On January 7, 2019, CPUC received comments from Southern California Edison Company, suggesting revising the effective date of the Draft Resolution from April 1, 2019 to March 1, 2019. The Draft Resolution was not changed in response to the comments. The user fee is remitted quarterly or annually by utilities and the Commission cannot process a mid-quarter user fee rate change at this time.

THEREFORE, IT IS ORDERED THAT:

Effective April 1, 2019 the current PUCURA user fees shall be revised as follows:

Electric Corporations	0.00058	\$/ kwh
Gas Corporations	0.00247	\$/therm
Heat Corporations	0.02713	\$/thousands lbs. steam
Water and Sewer System Corporations	0.0123 (1.23%)	x Revenue
Telephone and Telegraph Corporations	0.0034	x Revenue

I hereby certify that the Public Utilities Commission adopted this Resolution at the meeting on January 10, 2019.
