

Robert A. Thomas is a Principal Manager at Southern California Edison (SCE) with responsibility for the development of SCE's rate designs, marginal costs determination and rate class level sales forecasts. Prior to his current role, Robert held various positions within the company and his responsibilities have included providing customer specific rate and financial analyses involving self-generation, load growth, contract rates, and hourly pricing options. Robert also served as SCE's representative on the Self-Generation Incentive Program Working Group.

Robert holds a BS in Mechanical Engineering from the University of Arizona, an MBA from California State Polytechnic University, Pomona and a Professional Engineering License in Mechanical Engineering.
