

Track 3 RA Proposals

March 13, 2019

CPUC RA Workshop

R.17-09-020

Overview of Proposals

- Aligning RA and RMR processes.
- Allocating RA for Storage Procured Through Non-Bypassable Changes (NBCs).

Aligning RA and RMR Processes

- Current RA and RMR timelines require CAISO to extend RMR contracts before bilateral RA contracting completed.
- Proposal → Align processes to permit LSEs to complete bilateral RA contracting *before* CAISO acts on RMR extensions:
 - Final revised RARs issued to LSEs – Sept 4-6
 - Annual RA showing deadline – Sept 30
 - CAISO Conditional RMR extension – mid-Oct
 - CAISO final RMR approval letter – Nov 1

Allocating RA for Storage Procured through NBCs

- Current policy allocates RA to ESPs/CCAs for:
 - All resources, including storage, procured through the Cost Allocation Mechanism (CAM).
 - Demand Response resources procured through Distribution rates.
- Proposal → Allocate RA for storage procured through other NBCs – T, D, PPP.
- Ensures that DA/CCA customers receive the benefits for which they are paying.
